Contents

Introduction 1

1 General Orientation

Module: General Orientation 3
- Daily Aide Activities (reproducible) 4
- Aide Duties (reproducible) 5
- Job Description (reproducible) 6
- Performance Standards for Rehab Aides (reproducible) 8
- Policies and Procedures (reproducible) 12

2 Basic Principles

Module: Basic Anatomy 17
- Basic Anatomy (reproducible) 18

Module: Range of Motion and Stretching 24
- Direction of Movement (reproducible) 25
- Range of Motion Exercises (ROM) (reproducible) 26
- Stretching (reproducible) 32

Module: Strengthening and Exercise 33
- Strengthening and Exercise (reproducible) 34
- Exercise Equipment (reproducible) 35

Module: Transfers 36
- Transfers (reproducible) 37

Module: Ambulation and Gait Training 41
- Ambulation and Gait Training (reproducible) 42

Module: Modalities 44
- Modalities (reproducible) 45

Module: Vital Signs 46
- Vital Signs (reproducible) 47

Abbreviations and Terminology (reproducible) 48

3 Diagnostic-Specific Training

Module: Total Hip Replacement 51
Total Hip Replacement (reproducible) 52
Module: Amputee Patients 54
Amputee Patients (reproducible) 55
Module: Spinal Cord Injury 57
Spinal Cord Injury (reproducible) 58
Module: Traumatic Brain Injury 68
Traumatic Brain Injury (reproducible) 69
Module: Cerebrovascular Accident—Stroke 74
Cerebrovascular Accident—Stroke (reproducible) 75
