

CONTENTS

A Note to Students vii

CHAPTER 1

Communication and Its Disorders 1

- Human and Animal Communication 2
- Language and Communication 2
- Communication and Social Survival 2
- The Study of Human Communication 3
- Disorders of Communication 8
- Classification of Communicative Disorders 8
- Prevalence of Communicative Disorders 9
- Effects of Communicative Disorders 10
- Typical Test Questions 11

CHAPTER 2

Culture and Communication: Diversity and Disorders 13

- Language and Culture 14
- Multicultural United States 14
- Multilingual United States 14
- Primary English Dialects 16
- Secondary English Dialects 19
- Native American Languages 21
- Bilingualism 21
- Differences Versus Disorders 23
- Dialects and the Speech–Language Pathologist 24
- Myths and Stereotypes to Avoid 24
- Typical Test Questions 26

CHAPTER 3

A Profile of Speech–Language Pathologists and Audiologists 29

- Speech–Language Pathologists 30

Audiologists	33
Typical Test Questions	35

CHAPTER 4

Anatomy and Physiology of Speech and Language 37

Structural Mechanisms of Speech Production	38
The Respiratory System	38
The Phonatory System	38
The Articulatory System	41
The Nervous System	42
Typical Test Questions	48

CHAPTER 5

Articulation and Phonological Disorders 51

Experiments in Infant Speech Perception	52
The Inadequate Alpha, Beta	52
Sounds, Phonemes, and Allophones	52
Classifications of Speech Sounds	53
Acquisition of Speech Sound Productions and Sound Patterns	55
Speech Intelligibility	56
Articulation and Phonological Disorders	57
Descriptions of Articulation and Phonological Disorders	57
Potential Causes of Articulation and Phonological Disorders	59
Articulation Screening	61
Assessment of Articulation and Phonological Disorders	61
Assessment of Articulation in Relation to Ethnocultural Factors	62
Treatment of Articulation and Phonological Disorders	63
Typical Test Questions	67

CHAPTER 6

Language Acquisition and Disorders in Children 69

The Study of Language Acquisition	70
Early Language Acquisition	70
Later Language Acquisition	73
Theories of Language Acquisition	76
Disorders of Language	77
Potential Causes and Associated Problems	80
Assessment of Language Disorders	81
Treatment of Language Disorders	82
Typical Test Questions	86

CHAPTER 7

Fluency and Its Disorders 89

A Child's Story of Stuttering	90
Some Basic Characteristics of Stuttering	91
What Some People Who Stutter Tell Us	94
Prevalence of Stuttering	94
Theories of Stuttering	95

Assessment of Stuttering	98
Treatment of Stuttering	99
Cluttering	103
Typical Test Questions	105

CHAPTER 8

Voice and Its Disorders	107
Voice, the Sound of Speech	108
Prevalence of Voice Disorders	108
Classification of Voice Disorders	108
Aphonia	109
Dysphonia	110
Some Common Causes of Voice Disorders	113
Spasmodic Dysphonia	118
Evaluation of Voice Disorders	118
Treatment of Vocal Abuse	120
Typical Test Questions	121

CHAPTER 9

Cleft Palate and Communicative Disorders	123
What Are Clefts?	124
What Causes Clefts?	124
Types of Clefts	125
Varied Problems Associated with Clefts	126
Medical Rehabilitation	129
Assessment of Communicative Disorders	132
Treatment of Communicative Disorders	133
Typical Test Questions	135

CHAPTER 10

Medical Speech–Language Pathology	137
Overview of Medical Speech–Language Pathology	138
The Study of the Brain–Language Relationship	138
Aphasia	139
Motor Speech Disorders	143
Right Hemisphere Syndrome	147
Dementia	149
Traumatic Brain Injury	151
Dysphagia	153
Typical Test Questions	158

CHAPTER 11

Special Topics in Speech–Language Pathology	161
Cerebral Palsy	162
Autism Spectrum Disorders	166
Selected Genetic Syndromes	169
Intellectual Disabilities	170

Augmentative and Alternative Communication	172
Typical Test Questions	176

CHAPTER 12

Literacy and Speech–Language Pathologists	179
Speaking, Reading, and Writing: Similar but Different	181
Language Disorders Lead to Literacy Problems	181
Emergent Literacy: The Beginnings of Reading and Writing	182
Acquisition of Emergent Literacy Skills	183
Lack of Emergent Literacy Skills Leads to Literacy Problems	185
School-Age Children’s Reading and Writing	185
Assessment of Emergent Literacy Skills	187
Assessment of Reading and Writing	188
Literacy Intervention	190
Typical Test Questions	192

CHAPTER 13

Audiology: Hearing and Its Disorders	195
Acoustics: The Study of Sound	196
Anatomy and Physiology of Hearing	198
Normal Hearing	200
Disorders of Hearing	201
Assessment of Hearing Loss	204
Hearing, Speech, and Language	208
Communicative Disorders of People with Hearing Impairment	208
Typical Test Questions	210

CHAPTER 14

Audiological Rehabilitation and Education	213
Clinical Management of People with Hearing Impairment	214
Amplification	214
Hearing Aids	214
Auditory Training	216
Verbal Communication Training	218
Nonverbal Communication Training	219
Assistive Listening Devices	220
Counseling	221
Typical Test Questions	223

CHAPTER 15

The Professions: Education and Organizations	225
The American Speech-Language-Hearing Association	226
State Regulation of the Professions	229
The Road to Becoming a Professional	230
Typical Test Questions	233

Appendix: Answers to Typical Questions	235
---	------------
