## Initial-Position Paragraph /p/

---

Stops

Patty and Penny were sisters. One day Patty had a packet to pass on to Penny. She had to go to the post office. The packet, which had some pages, a pen, and pad in it, was sent in the mail. The postage was paid and the post office passed it along. When the packet reached its destination, Penny had to pick it up and sign for it. She put the packet in her pouch and pedaled her bike home. She opened the packet and found the nice pad, and pages and the neat pen. She then wrote a note to thank Patty.

# /m/

## Medial-Position Paragraph /m/

---

Jimmy and Kimberly went shopping for a gift. The sun had dimmed, and they were at Palmer Street. As they walked, they saw several things. There was a yellow lamp. Then there was a little house shaped like a dome. Then they saw a diamond beaming and gleaming. It was only a sample. They did not decide which gift to get. They tramped along, and each got a limeade. As they were leaving, they also got a free gumball. It was great to lumber along Palmer Street and look for gifts.

Nasals
