

Index

A

- Achalasia, 107, 108, 154, 562
- Allergy, 22–23, 55, 173, 270, 320, 326, 342, 350, 390, 398, 498, 570, 574, 598, 602
to foods, 12, 18–19, 108, 112, 114, 178, 182, 318, 324, 327, 337, 342–347, 558–559, 566, 570, 574–575, 580, 603, 614, 620, 636, 676, 678
and constipation, 109, 112, 570
signs and symptoms of, 112, 318, 342–346, 348, 390, 558–559, 566, 574, 620, 676
testing for, 114, 345, 566, 676
- Anal atresia, 103
- Anthropometric measures, 313
- Antibiotics; *see also* specific drug name, 111–112, 342–343, 558
and nutrition, 338, 341
- Anticonvulsants; *see also* specific drug name, 132, 341, 377, 650
- Aortic stenosis, 105
- Aryepiglottic folds, 44, 46
- Arnold Chiari malformation, 575
- Aspiration, 47, 51, 100, 106–107, 111, 135, 140, 143–144, 146, 153–155, 164, 210, 213, 267, 302, 334, 347–349, 387, 390, 469–470, 486–487, 490, 541, 545, 559, 564, 566–567
avoidance of, 512, 606
silent, 141–142, 189, 202, 611
in tube-fed infants, 145, 189, 200, 533–534, 585, 588, 598–599, 603, 605–606, 610–611, 613
- Assessment, 15, 59–61, 94, 139, 146, 157–188, 205, 209, 213, 215, 218, 222–223, 240–241, 252, 312, 495, 537, 540, 555, 619, 621, 624, 625, 631, 692–693
definition of, 6
intuitive approach to, 159
pre-feeding, 175, 179, 184
rational approach to, 159
- Atrial septal defect, 105
- Attachment, 32–33, 118, 164, 543, 558, 561, 587, 592, 598
- Auditory sensory information, 246, 253, 277, 285, 413, 447, 524
- Autism, 672–681
and food allergy, 343, 345, 676, 681
and hypersensitivity, 669
and mealtime communication, 382, 671, 678–679, 681
and motor planning deficits, 671
and nutrition, 318, 321, 677–678, 681
and sensory overload, 382, 670–671, 681
- B**
- Babkin's reflex, 76
- Backward chaining, 296, 515–516, 667
- Balance and equilibrium; *see also* Vestibular sensory information, 62–64, 73, 90–91, 109, 217, 278–279, 299–300, 347, 390, 404–405, 433, 511, 516, 603, 686, 688
- Behavior, 2, 5, 24, 61, 72, 97, 117, 133, 152, 162, 206, 210, 211, 212, 217, 218, 240, 241, 242, 252, 253, 256, 262, 263, 285, 316, 345, 347, 361, 362, 382, 387, 395, 450, 453, 457, 491, 492, 497, 509, 515, 534, 537, 539, 559, 566, 569, 673, 677, 681
and food, 6, 16–17, 19, 24, 26, 30, 32, 61, 99, 115, 117, 126, 136, 149, 163–164, 166, 168–169, 191, 197–203, 207, 209–210, 237, 250, 255, 261, 265, 267, 271–276, 301, 345–347, 354–355, 387, 410, 426, 428, 474, 488, 538, 545–546, 561, 575, 606, 611, 617, 621, 625, 629–630, 636, 639–642, 647, 669, 672, 675–676, 681, 684–685, 691, 693
mealtime, 17, 26, 99, 115, 126, 136, 164, 166, 190, 197, 199, 203, 207, 216, 249, 251, 254, 266, 273–276, 410, 426, 546, 561, 566, 608, 625, 631, 639, 640–642, 669, 671, 678, 693
observation of, 17, 26, 164, 166, 197, 199, 207, 247, 255, 266, 274, 426, 678
modification, 201, 221, 265, 271–276, 546, 611, 639, 647
- Bile, 46
- Bite, 39, 186, 226, 228, 238, 412, 440, 450, 456, 529, 663
facilitation of normal pattern, 394–395

Bite (*continued*)

- jaw movement in, 53, 61, 63, 68, 80, 82, 85–89, 91–93, 121, 125–126, 135–136, 219, 227, 229, 357–366, 375, 395, 406, 413, 416, 431–433, 446, 467, 471, 475–479, 501, 607
- jaw stability and, 53, 63, 68, 80, 125–126, 136, 219, 358–360, 362–363, 375, 392, 431–433, 446, 449, 453, 456–467, 471–473, 478
- treatment options and selection criteria, 167–174, 186–187, 189–190, 193, 196–197, 205–206, 209–213, 235–237, 239, 257, 357–401, 413, 429, 431–433, 441, 447–450, 453, 467, 471–473, 475–479, 485, 487–488, 497–502, 607, 639
- problems with, 102, 115–116, 121, 125, 132, 135, 167, 188–193, 196–197, 239, 357, 359, 373–375, 377–381, 394–395, 448–449, 470, 487–488, 607, 641, 644, 656, 683
- types of, 92–93, 125–126, 136, 357, 360, 363, 413
- Blindness, *see* Visual Impairment, 189, 284, 659–668
- Body alignment, 226, 298, 302, 446, 448, 450–451, 456, 550
- Body Alignment for Seating and Positioning Checklist, 309–310
- Bolus, 44–46, 48–50, 53–54, 71, 78, 83, 92, 107–108, 126–129, 132–135, 141, 150, 170, 192, 202, 210, 213, 219, 227, 349, 359, 367–370, 372–373, 376, 384, 387–389, 391–392, 398–401, 413, 433, 435, 438, 469, 471, 485–487, 490–491, 512, 533, 542, 558–559, 562, 567, 575, 579, 599, 606–607, 644, 657, 689
- size, 140, 146–148, 266, 389, 547, 602
- in tube feeding, 190, 211, 266, 275, 295–296, 560, 588–589, 592, 602, 612, 615–616, 639
- Bottle-feeding, 33, 35, 39, 54, 69–72, 165, 200, 250, 295, 319, 322, 337, 344, 350, 358, 370, 386, 399, 468, 499, 508, 532, 538–539, 543, 546–547, 593–594, 601, 627, 659–660, 662–663, 673, 692
- with cleft lip or palate, 98, 519, 652, 654–655
- coordination of breathing with, 53, 84, 114, 267, 388, 392–393, 474, 551, 613
- developmental sequence of, 78, 385, 508
- position for, 34, 73, 190, 294, 296, 383–384, 460–461, 474, 509–510, 551, 600, 654–655
- and sucking difficulty, 30, 34, 78, 98, 116, 125–126, 128, 136, 372, 461, 541, 545, 571
- Bottles, 16, 24, 30, 33–35, 39, 53–54, 60–61, 65, 67, 72–73, 76–78, 81, 84–85, 89–92, 98, 102, 114–116, 125–128, 134–136, 140, 142, 148, 190, 193, 200, 216, 250, 264, 267, 294, 296, 349–350, 372, 380, 385, 388, 398, 437, 460–463, 471, 474, 483, 495, 503, 508, 510, 511–512, 516, 518–520, 523, 531–532, 540–541, 543, 545–546, 551, 556, 571, 601, 612–614, 631, 652, 654–655, 658–663, 673
- criteria for, 498–499
- products, 497
- variations in, 468, 509
- Brain, 47, 107, 131, 142, 159–160, 254, 264, 283, 301, 316–317, 320, 327–328, 344, 346, 382, 534, 577, 609, 675–677
- dysfunction, 67, 122, 301, 327, 371, 382, 392–393
- sucking rhythm and, 67
- Breast-feeding, 9, 34, 39, 53–54, 61, 70–73, 75, 78, 99, 102, 118–119, 134, 153, 165, 176–177, 179, 207, 316, 319, 321, 337, 344, 350, 383–384, 386, 392, 399, 462, 474, 498–499, 503, 532, 538, 541, 543–544, 547–549, 593, 613, 627, 652, 659–660, 673, 692
- with cleft lip/palate, 653–654
- football hold in, 546, 653
- positions for, 546, 653–654, 693
- and sucking difficulties, 77, 91, 206, 545, 601
- Breathing patterns, 48, 51, 56, 67, 84, 161, 189, 197, 206, 210, 297, 356, 366, 368, 383, 474–475, 541, 548, 598, 688
- Bronchopulmonary dysplasia, 107, 110, 114, 127, 135, 200, 267, 350, 368, 392–393, 564, 626
- Bronchoscopy with bronchoalveolar lavage, 154
- C**
- Candida albicans, 112, 342–343
- Capital extension, 356, 362, 365–366, 368–369, 372, 376, 383, 464
- Central nervous system damage, 122, 378, 428, 569
- Cerebral palsy, 61, 122–124, 160, 189, 312–314, 318, 332, 345, 355, 397, 621
- Cervical auscultation, 147
- Cervical spine damage, 371
- Cervical vertebrae, 45
- Chewing, 13, 25, 29–30, 39–40, 43, 45, 48–49, 51, 53–54, 59, 61, 63–64, 67–68, 71, 75–76, 84–85, 87, 89, 92–95, 98, 102, 115, 121, 125–126, 128–129, 134, 167, 170, 186–187, 189, 192, 202, 204, 209, 215, 219, 227–228, 239, 247, 256, 259, 270, 279, 283, 287, 295–297, 313, 327, 348, 355, 357–359, 361, 364, 366–375, 378, 380–382, 389, 392, 397, 412–413, 416, 432–435, 437, 440–441, 450, 478–481, 484–485, 487–488, 491, 494, 498, 500, 511, 517, 531–533, 558, 571, 575, 596, 625, 644–645, 649, 655–657, 662, 664, 666, 670–671, 681, 683–687, 689–690
- facilitation of, 394–396
- movements, and food transitions, 66, 400–401, 454, 486
- munching, pattern of, 65, 86, 88, 91, 135, 229, 395, 396, 401, 477
- Chin-tuck position, for feeding, 258, 550, 603 and swallowing, 258
- Choanal atresia, 100
- Choking and gagging, 22, 25–26, 48, 51, 65–66, 71, 75, 83–85, 92–93, 141, 202, 204, 238, 250, 264, 275–276, 289, 297, 302, 412, 420, 438, 484, 492, 512, 524, 547, 576, 578–579, 631, 645, 655, 661, 670
- problems, 23, 28, 47, 91, 94, 102, 106–107, 114–115, 118, 132, 134, 154, 161, 192, 200, 203, 208, 241, 256, 328, 347, 379, 384, 386, 389–390, 393–395, 398–400, 487–491, 521, 540–541, 552, 555, 558–562, 564, 567–569, 574–575, 578, 586, 605, 627–628, 634, 640, 644, 656
- treatment options and selection criteria, 95, 154, 160, 189, 192, 203, 210, 213, 219, 241, 379, 384, 386–387, 389–390, 393–395, 398–400, 433, 441, 469, 475, 485, 487, 489–491, 493, 534, 555, 557–559, 562, 564, 568, 574, 589, 601–602, 604, 639–640
- Chronic intestinal pseudo-obstruction (CIP), 109
- Cleft lip, 98, 101, 190–191, 376, 651, 653–658
- bilateral, 649–651, 653
- Cleft lip or palate, and breast-feeding, 78, 652–654
- causes of, 377, 650
- and feeding, 98, 101, 128, 190–191, 297, 376–377, 649, 651–658
- and nasal reflux, 128, 376, 438
- in older children, 438, 519, 657
- resources for, 653–656
- and tongue retraction, 101, 128, 366
- Cleft palate, 78, 101, 128, 173, 190–191, 297, 366, 376, 438, 519, 651–658
- bilateral, 649–650
- Communication, 5, 9, 12, 24, 67, 92, 122, 124–125, 136, 170, 197, 205–207, 215–216, 224, 229, 236, 238–239, 242,

- 257, 272–273, 301, 321, 351, 353, 418, 451–452, 531, 537, 557, 596, 600–601, 605, 608–609, 617, 621, 672, 675, 678 and crying, 206–208, 257, 262, 661 environment, 3, 8, 28–29, 171–172, 207, 224, 236, 238, 245, 251, 253, 260, 262–263, 270, 276, 382, 419, 447, 608, 627, 681 at mealtime, 13, 25, 27–33, 61, 67, 97–98, 119, 160–162, 166, 171–172, 174, 199, 218, 237, 241, 245–246, 249, 251, 253, 255, 259–264, 266–271, 274, 276, 294–295, 305–306, 330, 357–358, 360, 362, 364–365, 367, 369, 373, 379, 380–382, 384–385, 389, 394, 408, 410, 419, 422–425, 427–428, 447, 475, 491–492, 507, 521, 539, 558–559, 574, 595, 602, 607, 621, 627, 631, 646, 655, 659–660, 663, 671, 673, 679, 681, 692–693 nonverbal, 174, 195, 218, 237, 245, 254, 260, 263, 669, 671, 678
- Compensatory patterns, 129–130, 301, 304, 363
- Congestive heart failure, 110, 588
- Constipation, 24, 109, 316, 318, 341, 348–351, 555, 560–561, 570–573, 579
- Coordination difficulties, 24, 51, 84, 97, 99, 101–102, 105, 109, 111–112, 116, 121, 128–130, 133, 135, 188–189, 191, 200, 202, 206, 208, 267, 293, 313–314, 323, 332, 366, 376, 383–384, 387–394, 400, 438, 473, 488, 490, 534, 541, 558, 562, 568, 587–588, 598, 608, 613, 626–627, 630, 643, 684
- Cough reflex, 75, 141
- Cranial nerve damage, 55, 374, 569 and drooling, 128 and limited movement, 47–49, 122, 127–128, 189, 370–372, 375, 388, 417 and swallowing, 189, 374–375, 378, 388
- Cricopharyngeal sphincter, *see also* esophageal sphincter, 44–45, 49–50
- Cup drinking, 25, 39, 59, 72, 82, 92–93, 148, 204, 240, 269, 280, 295–296, 358, 363, 424, 471, 499–500, 517–518, 525, 528–529, 666 coordination of breathing with, 84, 259, 393–394, 474–475, 516, 613 facilitating mature oral movements during, 80, 369–371, 375, 384–387, 432, 463, 466–467, 475, 486 introduction of, 61, 68, 79, 84, 91, 467
- Cups, 36, 39, 59–61, 67–68, 72, 79–82, 84–85, 91–93, 125–128, 195, 199, 204, 208, 240, 247, 259, 267, 275, 280, 286, 288–289, 295–296, 358, 362–364, 368–369, 371–372, 375, 385–388, 393–394, 414, 424, 429–430, 432–433, 437–438, 442, 449, 452–453, 462–463, 466–467, 471, 474–475, 483, 486, 495–496, 502–504, 507, 509, 512, 516–524, 531, 546, 571, 576, 587, 609, 612–614, 619, 631, 646, 660, 662–666, 668, 679–681, 686, 689 guidelines for use of, 79, 499–500
- D**
- Demand feedings, 39, 74, 549
- Dental malocclusion, 102, 367, 375
- Development, normal, 6, 59, 63–66, 69–70, 76, 81, 83, 87, 91, 94, 124, 126, 136, 192, 249, 252, 283, 337, 369, 377, 385–386, 463, 489, 519, 521, 655, 672 stability in, 363, 387, 391, 396, 432, 467, 472, 476, 622, 683 timing of, 53, 67–68, 71–75, 79, 85, 89, 93, 95, 97, 355, 532
- Developmental Pre-Feeding Checklist, global, 60, 697 sequential, 60, 712
- Developmental Self-Feeding Summary, 525
- Developmentally supportive care, 537–538, 543–544, 551
- Diaphragmatic hernia, 103
- Diarrhea, 23, 34, 109, 330, 340, 561, 573
- Digestive enzymes, 23, 45, 46, 112, 316, 319, 321, 326, 328–331, 340, 342, 538, 675, 677 amylase, 54–55, 85, 327 lipase, 55, 327 protease, 55, 327
- Diuretics; *see also* specific drug names, and nutrition, 340–341
- Division of Responsibility, 32, 35, 192, 241, 350, 426, 578, 640, 642, 692–693
- Down syndrome, 127, 166, 312–313, 368, 534, 622
- Drinking process, 79, 280, 302
- Drooling, 84–85, 259, 470, 683, 690 control of, 390–391, 472–473 and medications, 349, 390 problem, 128, 373, 390–391, 540, 684 and sensory awareness, 390, 472, 684, 686 snack cap, 472
- Dumping syndrome, 108, 351, 555, 570
- Duodenum, 45–46, 55, 108, 148, 153, 155, 590
- Dysphagia, 1, 274, 502, 692
- Dyspraxia, 316, 347, 532, 671, 685, 687
- E**
- Endoscope; Endoscopy, 102, 146, 147, 152–153, 156, 165, 566, 589, 675
- Endotracheal tubes in premature infants, 542
- Entrainment, 66–67
- Environmental limitations, 28, 97, 115, 118–119, 238, 263, 344, 353, 356, 360–361, 364, 369, 373, 384, 395–397, 421, 451, 477
- Environmental sensory variables, 69, 277, 285, 287, 381, 409, 417, 454, 661, 671 analysis, 278, 286, 291
- Environmental stimuli, 69, 112, 278, 356, 361, 396, 409, 418, 421, 551, 608 and biting, 286, 357, 364–365, 373, 378–379, 382, 493 and chewing, 534, 543, 550, 556, 558, 565, 570 and gastroesophageal reflux, 275, 389, 493, 610, 630 and jaw retraction, 365 and jaw thrust, 122, 356, 357, 419
- Epiglottitis, in infant, 51–53, 84 and swallowing, 44, 46, 50, 146
- Epipharynx, *see* nasopharynx
- Equilibrium reaction, 63, 217, 405, 688
- Equipment and feeding, 72, 79, 115, 365, 495–505, 509–510, 513–514, 592–594, 601, 613–614, 654–656
- Esophageal atresia, 103–104, 107–108, 147, 150, 190, 193, 562, 575, 587
- Esophageal dysmotility, 103, 107, 562–563
- Esophageal manometry, 154
- Esophageal sphincter, 135, 151 lower, 45, 46, 103, 106–107, 151–152, 154, 296, 300, 328, 347, 550, 561–562, 564, 567, 599 upper, 45, 50, 135, 154, 589
- Esophagitis, 54, 106, 152–153, 265, 561, 564, 566–567
- Eustachian tube, 44 and middle ear infection, 52, 342
- Exaggerated jaw movement, 123, 125, 136, 357–359, 362, 368, 452–453
- Exaggerated tongue protrusion, 127, 136, 367–368, 406, 453–454, 518
- Experiential limitations, 113–118, 312 emotional experiences, 115 lost experiences, 117–118 mealtime experiences, 115–117, 671 sensory experiences, 99, 113–115, 133, 671

- Extension, 63–64, 68, 78, 89, 93, 123, 125, 127–130, 141, 161–162, 197, 199, 206, 212, 216, 258–261, 299, 301, 305, 356, 361–366, 369, 372–373, 376, 383–384, 404, 407, 410, 419, 448, 451, 453, 455–456, 464, 514–516, 541, 548, 550, 552, 603, 613, 667
- Extensor muscles, 125
 movement and, 63–64, 123, 136, 161, 198, 261, 300, 345, 356, 363–366, 369, 373, 541
- Extensor system, 63
- External stability, 62, 79, 126, 517, 689
- Eye control and positioning, 238, 262, 294, 298, 301, 403, 408
- F**
- Facial molding and lip retraction, 60, 128–130, 134, 137, 167, 299, 372–373, 385–386, 395, 415–416, 443, 444, 446, 449, 455–457, 459, 463–464, 532
- Facial tension and limited upper lip movement, 375, 415–416, 457
- Facilitation and movement, 253–254, 301, 304, 383–392, 394–400, 460, 463–464, 466–467, 469, 474–475, 477, 479, 481, 483, 486–488, 491, 510, 593, 603, 607–608
- Failure to thrive, *see also* Pediatric under-nutrition, 314, 326, 616, 623–625, 627, 643, 647
- Faucial arches, 44, 605
 anterior, 43
 posterior, 43
- Feeding, 7, 9, 13, 18, 20, 23, 29–31, 36, 48, 62–63, 65, 69–70, 81, 83, 87, 103, 108, 115, 127, 129, 150, 176, 180, 182, 193, 194, 201, 203, 205, 210–211, 215, 217, 219–220, 222–223, 227–228, 236, 241–242, 250, 255, 256, 265, 268, 271–272, 275–276, 313–314, 316–318, 321–322, 324, 327, 331, 333, 336, 341–342, 345, 347, 349, 353, 358, 376–377, 381–382, 399–401, 410, 412, 417, 425, 427, 434, 441–442, 448, 483, 492–493, 512–513, 544, 552–553, 558, 560, 565, 567, 571, 574, 576, 578–580, 585, 589, 591, 604, 607, 611, 617, 619, 620, 622, 627, 630, 636, 639–641, 643, 647, 649, 656, 668–672, 675, 679, 684, 689–690, 692, 694
 assessment, 4, 6, 61, 94, 139, 149, 157–158, 160, 163–165, 168, 170–174, 184–186, 188, 240, 312, 546, 548, 555, 621, 624–625, 693
 and breathing, coordination of, 56, 84, 101, 104, 106, 110, 161, 188–189, 259, 267, 328, 388, 438, 474, 539–542, 547, 551, 588, 626
 during bottle- or breast-feeding, 53, 383, 392–394, 474, 541
 during cup drinking, 85, 393–394, 474–475, 516, 613
 equipment for, 22, 79, 191, 245, 286, 301, 304, 350, 365, 461, 495–496, 502–505, 510, 514, 523, 606, 614, 654, 657, 693
 criteria for, 495, 497–502
 independence and, 15, 17, 35, 38–39, 75, 93, 117, 167, 295–297, 429–430, 491, 501, 507–529, 592, 631, 659, 665–668
 limiting movement patterns in, 6, 97, 109, 121, 124, 126, 130, 134–135, 167, 190, 202, 246, 262–263, 301, 332, 354, 356–357, 360–361, 364–365, 367, 369, 371–373, 375, 380, 385–386, 392–393, 395, 421, 429–430, 449, 451–454, 459–463, 465–467, 469, 473, 489, 605
 methods of, 66, 101, 296, 366, 373, 515–516, 520, 546, 592, 602, 651–652, 654
 parent involvement in, 1, 10, 17, 32, 170, 174, 192, 221, 543–546, 577, 597, 642
 patterns and rhythm, 67, 79, 85, 95, 226, 254, 357, 361, 363–364, 366, 398, 461, 474, 480, 542, 599, 606
 position, 34–35, 73, 101, 166, 208, 247, 249, 259, 262, 287, 293–306, 402–404, 407–409, 460, 462–463, 466–467, 469, 474, 490, 503, 522, 546, 548, 550–551, 564, 568, 592–593, 600–601, 606, 631, 653–655, 657–658, 693
 summary of, 171, 186, 197
 process, 24, 32–33, 34, 41, 43, 74–75, 90, 121, 139, 172, 189, 239, 280, 294, 302, 326, 354–355, 374, 392, 499, 507, 515–516, 521, 543, 557, 577, 601, 610, 612, 616, 652–654, 659–660, 662–663, 666
 and speech, 102, 172, 219, 370, 373, 375, 416, 531–535, 595, 608, 683, 685–687, 691
 system, 3, 46, 55, 67, 92, 100, 102, 106–119, 197, 264, 503, 545, 613, 652, 654–655, 657

 global approach, 5, 60, 89, 160, 211
 checklist of, 60, 697
 sequential approach, 160
 checklist of, 60, 712
 in treatment planning, summary of, 171, 186, 197
- Feeding therapy for tube-fed children, 595
- Feeding tubes, 19, 103, 109, 117, 189, 196, 250, 252, 264, 332, 348, 350, 388, 523, 533, 545, 567–568, 585–617, 625–626, 636
- Fiberoptic endoscopic evaluation of swallowing (FEES),
 advantages, 146, 147
 limitations, 147
- Fight-or-flight mechanism, 132, 137, 189, 203, 255, 328, 380, 674
- Finger-feeding, 295–296, 479, 511–512, 516, 521, 523, 525–526, 545–546
- Finger toothbrush, 270, 440, 471
- Flexion, 68, 130, 258, 298, 356, 360, 362–363, 365, 402–405, 407–408, 420, 448, 515, 541, 564, 566, 603
 and sucking, 78, 89–90, 123, 126, 372, 383–384, 460, 508, 541, 548, 550
- Flexor system, 63
- Food, 8, 11, 13, 15, 20–22, 25, 27, 34, 39–41, 44–49, 53, 56, 59–60, 64, 68, 70–71, 76–77, 81–93, 95, 103–104, 110–111, 113, 116, 119, 126–127, 133–134, 137, 140–145, 147, 154–155, 160–161, 163–164, 167–168, 171, 174,

- 177, 187–189, 191, 193, 196, 199, 202–204, 207–208, 213, 216–217, 219, 227, 229, 237, 241, 245, 249, 251, 254–256, 260, 268, 277, 279–283, 290, 294, 296–297, 299, 311, 313–315, 317, 325, 330–331, 342, 349, 360, 363, 365–366, 370, 372–374, 377–379, 381–382, 388, 391–392, 394, 415–416, 418, 423–424, 433–435, 442, 456, 461, 465, 470, 472, 479–480, 487, 495, 501, 503, 507–508, 514, 516, 520–523, 525–527, 531–532, 553, 557, 574, 577–578, 586, 588, 590, 592, 594, 605, 607–609, 624, 629, 644–646, 658, 660, 662–663, 665–669, 671, 680, 683, 688, 692
- and behavior, 24, 117, 265, 273, 345, 347, 681, 685
 - to facilitate oral movement, 51, 63, 65–66, 94, 195, 209, 226, 354, 357, 364, 367–369, 371, 385–387, 395–397, 399–400, 420–421, 429–431, 436, 452, 458, 463, 476–478, 481, 486–489, 493–494, 595, 684–686, 689–690
 - for finger feeding, 228, 511, 512
 - and gastroesophageal reflux, 19, 23, 26, 52, 106–108, 151, 153, 250, 264, 275, 312, 326, 334, 340, 345–347, 389, 438, 555, 565, 567, 576, 598
 - high fiber, 329, 340
 - and interference with oral movement, 489
 - nutritional value of, 10, 316, 333, 339, 340, 642
 - quantity, 74, 173, 239, 276, 321–322, 576, 614, 656
 - selection of, 7, 9–10, 17, 312, 324, 329, 336, 338–339, 341, 367, 376, 390, 400–401, 413, 421, 426, 429, 445, 481, 483, 485–486, 489, 606, 625, 642, 674, 676, 690, 693
 - sensitivity, 19, 108–109, 112, 114, 287, 334, 337–338, 343–347, 425, 558, 576, 602–604, 670
 - and constipation, 316, 351
 - transition, 36, 66, 70, 72, 74–75, 91, 102, 258, 287–288, 322–323, 336, 338, 398–401, 437, 454, 462, 471, 477, 481, 483–484, 486, 491, 551–552, 563, 593, 598, 610–616, 625, 627, 656, 673–674, 685, 687
 - from liquids to smooth solids, 165, 398–399, 483–484, 563, 613, 685
 - from lumpy solids to chewy solids, 75, 91, 400
 - from smooth solids to lumpy solids, 36, 75, 91, 399, 484
 - vegetable protein, 335
- Forks, 39, 40, 41, 289, 295, 513–514, 520, 524–525, 527, 612, 646, 666, 668
- Frenulum, *see* Lingual frenulum
- Fundoplication, *see* Nissen fundoplication, Thal fundoplication, Toupet fundoplication
- ## G
- Gag reflex, 48, 71, 75, 91, 204, 379, 398–400, 412, 438, 441, 484, 490–492, 644
 - hyperactive, 389, 420
- Gagging, 23, 83, 107, 132, 154, 200, 202–204, 241, 264, 275–276, 347, 351, 379, 384, 398–400, 420, 438, 485, 487, 489, 492–493, 512, 540, 552, 555, 557, 559–562, 564, 567–569, 574–579, 589, 598, 602, 628, 640, 686
 - types of, 71, 102, 241, 389, 490–491, 558
 - communication, 241, 389, 491, 558
 - coordination and timing, 490
 - emotional, 491, 558
 - hypersensitivity, 490–491, 558
 - motor-based, 558
 - mucous, 490, 558
 - protective, 490, 558
 - structural, 102, 389, 490–491, 558
- Gastric emptying, delayed, *see* stomach emptying
- Gastroesophageal reflux (GER), 19, 29, 72, 102–103, 108, 114, 142, 146, 148, 150–156, 163, 178, 183, 190, 202, 210, 250, 264–265, 267, 275, 320, 326, 328, 334, 340–341, 346, 355, 387, 389–390, 491, 539, 541, 555–558, 561, 563, 570, 575–576, 579, 590, 598–599, 610, 619–620, 626, 629–631, 634
 - medical factors and, 349, 567, 601
 - medical management of, 351, 562, 575–576, 589, 601
 - possible causes or relationship, 109–110, 149, 338, 490, 550, 559, 564–566, 568, 602
 - reduction of, 23, 98–99, 105–107, 112, 296, 319, 338, 342, 490, 493, 550, 552, 562, 566–567, 570, 593, 601, 603
- Gastroesophageal scintigraphy: *also* scintigraphy; nuclear scintigraphy; technetium scan, 153, 156, 565
- Gastrointestinal discomfort, 24, 100, 114, 152, 190–191, 199, 201–204, 239, 255, 265–266, 274, 331, 338, 341, 343, 555–557, 559, 561–563, 570–571, 573–575, 602, 620, 626, 636, 639, 675–676
- Gastroesophageal reflux disease (GERD), 103, 106–107, 152, 558–559, 563–566, 568, 591, 598
- Gastroesophageal Reflux Parent Questionnaire, 163, 565, 568, 581–583
- Gastrostomy tube, 95, 152, 160, 193, 195–196, 200, 223, 258, 275, 314, 560, 565, 569, 586, 589–590, 594, 616, 639, 640
- Grasp, 37, 39, 65, 90, 496, 507–514, 518, 520, 523–524, 577, 666
 - refined, with reach, 62–64, 92
 - with sucking reflex, 76, 133–134, 653
- Growth Charts, 166, 168, 184, 313, 553, 621–624
- Gustatory sensory information, 277, 281, 524
- ## H
- Hand over hand, 66, 115, 270, 515–516, 666
- Hand under hand, 257, 269, 405, 462, 474, 476, 479, 517, 665

 - toddlers, 39
- Mealtime Assessment Guide, 164, 171, 184–186, 188
- Mealtime Program, 230
- Medication, 18, 109, 132, 152, 165, 200, 206–207, 320, 350, 377, 556, 573, 579, 589
 - and anorexia, 341
 - and appetite, 22–23, 56, 167, 265, 341, 351, 555, 558, 575, 580, 588, 598, 601, 619, 628, 640
 - and drooling, 349, 390
 - and gastroesophageal reflux, 98, 108, 112, 250, 275, 319, 341–342, 345, 351, 390, 490, 558, 567–568, 575–576, 598, 601, 619, 631, 634, 639
 - and nutrition, 319, 331, 341, 347, 351, 538, 552, 593
 - and vitamin and mineral supplementation, 341
- Mesopharynx, 44
- Metamusic, *see* Hemi-Sync
- Micrognathia, 101, 365, 366, 460
- Midline development, 64, 88, 377, 457
- Milk, 19, 34–36, 53–54, 69–71, 74–77, 84–85, 101, 114, 315–325, 327, 329–330, 333, 335, 337–342, 344–346, 350, 398, 462, 487, 489, 513, 541, 543–544, 546, 548–549, 552, 565, 643, 676–678
 - delivery alternatives, 545, 653
- Mineral oil, and nutrition, 317–318, 341, 349
- Minimal involvement, 683–690
 - diagnosis of, 685
- Mini-meals, and weight gain, 333, 614, 642
- Mouth, 3–4, 6–7, 19, 21, 26, 29–30, 36–40, 44, 46–49, 53–54, 57, 59–66, 68, 70–71, 74–75, 77, 79–80, 82–84, 86–87, 89–92, 94–95, 98, 106, 109, 113–114, 116–117, 122–123, 125, 128, 130–135, 137, 144, 153, 160, 162, 166–167, 172–173, 182, 187–191, 193, 195–196, 198–204, 206–212, 216–219, 222–224, 226, 228–229, 236, 238–241, 245–246, 249–251, 253, 256–259, 261–262, 264–267, 272, 275–277, 280–281, 285–287, 289–290, 296–299, 305, 313, 326–328, 337, 341, 349, 351, 355–365, 367, 369–377, 379, 381, 384–385, 387–389, 395–401, 404, 406–407, 409–417, 419–420, 422–424, 428, 430–437, 440–449, 451–452, 454–455, 457–459, 461, 464–465, 468, 470–472, 474, 476, 478, 480, 482–486, 488–492, 495–499, 501, 503, 507–509, 513–514, 517–521, 523, 525–527, 533–535, 540, 542, 544–546, 548, 556, 559, 561, 568, 575–576, 578, 586–590, 592, 594–604, 606, 608–616, 619–620, 629–630, 634, 636, 639–641, 644–645, 649–650, 652, 654–657, 660–666, 668–672, 679, 686–688, 691, 693
 - in adult, 52, 81, 101, 115, 118, 126, 161, 225, 227, 242, 270, 271, 429, 450, 456, 479, 502, 515, 516, 524, 593, 605, 607, 667
 - breathing, 105, 110, 260, 393
 - differences in newborn and adult, 52, 101
 - fine-motor control of, 24, 85, 192, 295, 390, 511, 683, 685, 689
 - floor of, 43, 51, 102, 145, 453, 628
 - limiting movement patterns of, 129, 260, 392–393, 418, 429, 446, 460, 462–463, 466–467, 469, 473, 475, 477, 481
 - in newborn, 35, 52, 69, 78, 100–101
 - position of, and drooling, 390–391
 - stuffing, 378, 487, 493–494, 683–686, 689–690
- Mouthing, 69–70, 72, 85, 90, 115, 117–118, 189, 208, 227, 239, 290, 358–359, 363, 371, 375, 379–380, 389, 411–412, 415, 439, 441, 450, 454, 501–502, 507–508, 512, 520–521, 533, 552, 576, 660–663, 679, 685
 - discriminative mouthing, 71, 91, 414, 423, 432, 437, 442, 446–447, 458–459, 467, 472, 478, 484, 491, 534, 604
- Movement, 3, 5, 25, 44, 49–50, 52, 64, 69, 74, 87, 94, 99, 108, 132, 141, 145–147, 151, 156, 159, 162, 173, 188–189, 196, 198, 200, 202, 208, 217, 222, 227, 239, 258–259, 278–279, 284–285, 290, 302, 323, 347, 350, 362, 364, 366, 377, 382, 403–404, 414–417, 420–422, 431–433, 435, 440, 442–443, 445, 447, 457, 470, 490, 493, 504, 508, 511, 513, 515–516, 523, 535, 559, 561–562, 564, 566, 569, 589, 595, 599, 603, 613, 616, 627, 654, 657, 660, 667, 670, 686–690
 - and body awareness, 280, 303, 305, 409–411, 441
 - in communication, 67, 92, 124, 136, 161, 166, 197, 199, 207, 245, 254, 257, 260, 262, 270, 301, 357, 360, 365, 369, 373, 410, 418, 424–425, 451–452, 600, 607–608, 671
 - economy and efficiency of, 62, 65–68, 76, 79–81, 83, 85–86, 88–90, 102, 105, 121, 126, 128, 135, 210, 219, 226, 247, 261, 293, 303, 305, 328, 375, 378, 383–386, 388–389, 391, 394, 461, 469, 471, 512, 614
 - extensor and flexor muscles in, 63, 68, 123, 127, 136, 300, 356, 363, 365
 - in feeding, freedom of, 71, 101, 110, 124, 301, 367–369
 - of jaw, tongue, lips, during sucking, 51, 61, 67, 77–83, 89–93, 95, 98, 121, 123, 134–136, 167, 210, 226, 355, 359, 367–368, 372–373, 375, 384–385, 452–454, 461–465, 468, 473, 519–520, 532, 541, 545, 607
 - limiting, 51, 121–130, 134–136, 190, 199, 202, 207, 221, 260–263, 267, 301, 304, 332, 356–357, 360, 365, 368–369, 371–373, 375–376, 379–380, 383–400, 405–407, 418–419, 421, 429–430, 436, 439, 444, 446, 449, 451–456, 458–460, 462–463, 465–467, 469–470, 473, 475–477, 479, 481, 489, 494, 510, 571, 605, 685
 - programs, 293, 300, 304, 534
- Mucus, 55, 347–348, 489–491, 558, 561, 603, 606, 608
- Munching pattern of chewing, 88, 135
 - facilitation of, 396, 477
 - and food transitions, 91, 477

- Muscle tone, 51, 101, 107, 110, 122–124, 127, 129, 131, 134, 137, 311, 362–363, 370, 372, 375, 384, 389, 391–392, 394, 417, 440, 443–446, 458–459, 480, 488, 539, 571
 abnormal, 108–109, 280, 541, 570
 allergy and, 112, 343–347, 390, 398, 570, 620, 636–637
 and constipation, 109, 318, 341, 348–350, 570–571
 and learning, 73, 90, 102, 167, 188–189, 208, 210, 238, 243, 245, 280, 354, 357, 359, 361, 365, 369, 386, 395, 397, 457, 474, 494
 during mealtime, 128, 167, 188, 200, 219, 245, 257, 262, 279–281, 297, 300, 332, 354, 356–358, 365, 368, 374, 378, 385–386, 388, 393, 396, 398–400, 409, 521, 599, 689
- Music, 2, 4, 11, 28, 32, 35, 145, 206, 208, 226–227, 253, 256, 258, 275–276, 278, 285–287, 330, 406, 414, 418–420, 423, 444–445, 447, 450, 456, 460–461, 463, 476, 492, 503, 551, 561, 577, 605–607, 645, 660, 693
 for sensory organization, 207, 255, 421–422, 609, 689
- ## N
- Nasal cavity, 51–52, 100, 283, 376
- Nasal reflux, 438
 possible causes or relationship, 128
 problem, 376
 treatment and selection criteria, 375–376
- Naso-esophageal probe, 151
- Nasogastric tubes, 115, 195, 538, 586–589, 591, 598
- Nasopharyngeal reflux, 107
- Nasopharynx, 44, 51, 58, 107, 283
- Nausea, 112, 265, 555, 557, 559, 561
 emotional influences and, 558
 medication and, 341, 558, 576, 579, 628
 physiological processes and, 558
- Neck hyperextension, 208, 259, 517, 564
 and jaw thrust, 356
 and jaw retraction, 365
 and lip retraction and pursing, 372
 and tongue protrusion, 603
 and tongue retraction, 126, 356, 366
- Neonatal Oral Motor Assessment (NOMAS), 540
- Neophobia, 40, 624, 643
- Nerves, 564
 cranial, 47–49, 55, 122, 127–128, 189, 370–372, 374–375, 378, 388
 facial, 48, 127–128, 370, 374–375
 glossopharyngeal, 48, 127
 hypoglossal, 48
 olfactory, 47–49
 trigeminal, 48–49, 374–375
 vagus, 47–48, 55, 388
- Neurological damage,
 and hyperreaction, 379
 and hyporeaction, 378
- Neurological Immaturity, 541, 552
- Nipple, 33–35, 51, 53–54, 64, 70, 74, 77–80, 89–90, 98, 101–102, 127, 148, 190, 200, 206, 294, 369, 380, 384, 387, 393, 461–462, 464, 474, 497, 499, 509, 518, 537, 539–541, 544–545, 547, 549, 551
 for cleft lip or palate, 652, 654–655
 criteria for, 498
 for premature infant, 72, 546, 548
 products, 134
- Nissen fundoplication, 108, 114, 154, 567, 568–570, 602, 639
- Non-nutritive sucking, *see* Sucking
- Nose breathing, 51–52, 100, 283
- Nourishment, 8, 11–13, 31, 41, 71, 75–76, 166, 237, 245, 508, 523, 596, 625
- NUK toothbrush trainer sets, 438, 440, 471, 607
- Numi-Med medicine pacifier, *see* Pacifier
- Nutrition, 7, 20, 319, 325, 623, 651
 and ADHD, 318, 321, 346, 347
 antibiotics and, 341
 assessment of, 555, 592, 621, 624–625, 674–675
 caloric density, 74, 333
 calories and, 10, 23, 313, 315, 323–324, 333, 335, 350, 567, 588, 615, 625
 carbohydrates, 315, 321, 333
 and cerebral palsy, 312–313, 318, 621
 dietary diversity, 321, 337, 593, 615, 625
 and Down syndrome, 312–313
 fats, 315, 317, 320, 321–324, 327, 329, 331, 333–334, 337, 339, 341, 349
 food quantity and, 74, 173, 324, 624–625
 food sensitivities and allergies and, 23, 109, 173, 318, 324, 327, 337, 343–347, 498
 glyconutrients, 321
 intake, 74, 173, 311–312, 317, 320, 328, 333, 587, 592, 677
 metabolism, 317, 319, 329
 minerals, 10, 312, 314, 317–320, 329, 341, 346, 681
 and Noonan syndrome, 312
 nutrient density, 315, 333
 osmolality, 333
 and Prader-Willi syndrome, 312
- proteins, 10, 22–23, 313–317, 320–321, 324, 326–327, 333–335, 337, 346, 349, 677
 phytonutrients, 320–321, 337, 343
 and tube feeding, 109–110, 145, 196, 250, 296, 313, 320, 323–324, 337, 350, 388, 533, 538, 549, 585–588, 590–593, 597, 626
 and Turner syndrome, 312–313
 vitamins, 312, 315–320, 327, 329, 331, 336, 339, 341, 346, 349, 677, 681
- Nutritional value of foods, 10, 316, 333, 339–340, 642
- Nutritive sucking, *see* Sucking
- Nuts and seeds, 7, 317, 320, 333, 335–336, 339, 571–572
- ## O
- Obligate nose breathing, 51
- Olfactory sensory information, 47–48, 277, 282, 287, 524
- Olfactory system, 281–283, 594
- Oral acuity, 197, 377
- Oral cavity, 46–47, 51–54, 76–77, 115, 128, 135, 366, 375–376, 437–438, 487, 548, 599
 midlines of, 64, 650
 structures of, 43, 650
- Oral Control, 24–25, 43, 62, 64, 74, 85, 125, 141, 188, 200, 209, 298, 354, 365, 367, 371–373, 376–378, 380–382, 384–385, 388–389, 393, 398–400, 402, 414, 420, 423, 427, 441, 443, 447, 484, 491, 493–494, 511–512, 521–523, 534, 552, 562, 568, 595, 599, 605, 608, 617, 656, 683, 685, 687, 689–690
 jaw control, 247, 357–360, 362–364, 366, 368, 374–375, 386–387, 391, 394–397, 430–434, 439, 445–446, 449, 451–453, 466–467, 471–473, 475–479, 511, 542, 551, 684
 limiting areas, 443–460, 462–463, 466–467, 469, 473, 475, 477, 481
 lip and cheek control, 94, 129, 204, 368, 374–375, 385–386, 391, 395–396, 434–435, 445–446, 456, 459–460, 462–463, 466–467, 469, 473, 475, 477, 479, 481, 518, 531–533, 542, 551
 tongue control, 199, 247, 367–370, 372, 377, 391, 394–397, 435–439, 445, 451–453, 456, 458, 471, 511, 603, 684
 velopharyngeal control, 438
- Oral-facial stimulation materials, 501–502
- Oral feeding, 1, 3, 5, 7, 15, 19, 21, 25, 28, 30, 53–54, 62–63, 68, 74, 77, 85, 93, 98, 100–, 104, 106, 109–111, 114–119, 121, 124–136, 142–143, 167, 171, 179, 182,

- Oral feeding (*continued*)
 188–193, 195–197, 199, 201, 203, 207,
 209, 212, 219, 224, 226–227, 236, 238,

 421, 451–456, 476–477, 524, 547, 551, 561, 604, 671, 679, 681
- Sensory feedback, 69, 191, 258, 301, 362, 388, 415–416, 435–437, 443–444, 446, 449–451, 453–455, 457, 464, 467, 472, 477, 480, 603, 617, 688
- Sensory input, 11, 19, 26, 65–66, 68–69, 71, 94, 99, 122, 131–133, 137, 167, 188–190, 195, 204, 207, 209, 216, 218, 222, 225, 237, 243, 246, 253–254, 266, 278–279, 281, 285, 304, 340–341, 356–358, 360–361, 364–365, 367, 369, 373, 378–382, 387, 389, 395–396, 409, 412–413, 415–419, 421, 423, 436, 440–441, 444–445, 450–460, 476–479, 487, 491, 494, 523–524, 533–534, 547, 587, 597, 603, 605, 629, 673, 679, 681, 684
- Sensory modulation, 21, 26, 114, 349, 381, 413, 521, 627, 629, 671, 688
- Sensory overload, 99, 131, 133, 137, 189, 207, 217–218, 246, 255, 263, 285, 289, 378, 381–383, 417–418, 421, 447, 451–456, 460, 470, 476–477, 524, 640, 670–671, 681
- Sensory processes, 3, 5, 25, 28, 47, 75, 114, 121, 130–132, 189–191, 197, 218, 222, 237, 239, 241–242, 249, 275, 278, 314, 326, 329, 354, 377, 383, 385, 387, 395, 457, 497, 504, 523, 533, 627, 629, 640, 644, 669–671, 674–675, 678–679, 685–688
- Sensory systems, 24, 26, 29, 66, 69, 72, 97, 105, 113–114, 130–132, 137, 188–190, 197, 204, 218, 220, 225, 228, 241, 243, 258, 277, 286–287, 343, 378, 381–382, 388, 411, 413–415, 421, 423, 440, 447, 451–456, 460, 464, 467, 476–477, 490, 523–524, 545, 569, 595, 670–671, 678, 688
 auditory, 253
 olfactory, 281, 283, 594
 proprioceptive, 279–290, 422
 taste, 111, 281–282, 481, 488, 587, 594
 vestibular, 278–280, 422
 vision, 99, 253, 301, 316, 661
- Sensory threshold, 131–132, 197, 377–379, 417, 589
- Separation and Individuation, 36, 38, 46, 51, 53, 63, 67, 82, 103, 118, 240, 386, 509, 534, 649, 686
- Sequential analysis in assessment, 160
- Short Bowel syndrome, 103, 190, 590
- Short lingual frenulum, 102, 397
- Shoulders, and position, 62, 68, 90, 122–123, 125–126, 128–130, 136, 161, 196, 198, 247, 259, 297–300, 362, 365–366, 369, 376, 402–405, 411, 415, 441, 508, 513
- Sight; *see also* Visual sensory information, 9, 35, 90, 190, 236, 250, 275, 283, 285, 379, 389, 417, 481, 491, 574, 586, 659, 671, 681
- Sitting position, 24, 36, 62, 68, 72–73, 101, 141, 144–145, 148, 160–161, 210, 216–217, 222, 298, 300, 403–404, 407–408, 418, 567, 573
 and jaw clenching and tooth grinding, 360, 363, 405
 and jaw retraction, 299, 365, 405
 and jaw thrust, 356, 405
 and lip retraction and pursing, 299, 372
 and tongue protrusion, 603
 and tonic bite reflex, 360, 363, 365
- Small intestine, 23, 45–48, 54–56, 104, 108, 326–328, 568, 570, 589–590, 593, 677
- Smell; *see also* Olfactory sensory information, 29, 111, 131–132, 189–190, 282, 337, 379, 663–664, 670, 680–681
 and taste, 40, 48, 281, 283, 287–288, 347, 377, 380, 481, 488, 594, 662
- Snack cap, 416, 450, 453–454, 467, 472, 477, 480
- Snack food, and transition to oral feeding in tube-fed children, 615
- SNS; *see* Supplementary Nursing System
- Socialization; *see also* Attachment, 3, 8, 13, 33, 35, 41, 245, 294–295, 306, 592
- Soft palate, 43–44, 46, 48–52, 58, 98, 101, 128, 142, 210, 376, 438, 649–650, 652
- Solid foods, smooth, introduction of, 81, 399, 484
- Sound, at mealtime, 254, 256, 285, 659, 661
- Spanish translation of parent questionnaires, 727–740
- Special feeding issues, 23, 40, 77, 152–153, 160, 220, 227, 316, 321–322, 327–328, 427, 513, 525, 527–528, 567, 571, 588, 592, 612, 616, 620, 692
- Speech, 46, 67, 82, 83, 85, 102, 124, 146, 172, 185, 192, 219, 243, 259, 262, 285, 416, 418, 437–438, 521, 595, 603, 651, 657, 683, 685–687, 691
 and hypotonia, 370, 373, 375
 feeding and early speech sounds, 531–535, 608
 and language delays, 533
- Speech-language pathologist, role in feeding assessment, 172
- Spoon and Fork Summary, 527
- Spoon feeding, 72–73, 77, 90–91, 200, 209, 363, 368–370, 385, 399, 435, 463, 465, 467, 501, 512–514, 516, 523, 531–532, 656
 in cleft lip or palate, 656
 developmental sequence of, 385
 mature oral movements during, 134, 385, 463
 sensory input and, 66, 134, 385, 412, 459, 523, 662
- Spoons, 23–24, 26, 29–30, 36–41, 53, 60–61, 66–67, 70–73, 76–77, 81–82, 90–95, 98, 116–117, 125–128, 134–136, 140, 155, 160–161, 169–170, 177, 186, 188, 190, 192–193, 195–196, 198–203, 206–209, 213, 215–216, 222, 224, 226–229, 238, 241, 245, 257–259, 261–263, 267, 275–278, 280, 284, 286, 289–290, 294, 296, 299, 304, 358, 362–365, 367–369, 372, 374–375, 379, 385–386, 388, 398–400, 412–414, 419, 420, 423, 428–430, 435–438, 442, 446–449, 452–454, 459, 462–467, 470–471, 476, 481–483, 485, 487–488, 491–492, 496, 501–502, 504, 507–508, 512–516, 520–525, 527, 531–532, 535, 552, 576–577, 587, 599, 606, 609–610, 612–614, 619, 628, 631, 634, 636, 641, 645–646, 656, 659, 661–664, 666–668, 671–673, 679–680
 adaptations, 501
 criteria for, 501
 for early spoon feeding, 370, 385, 532
 products, 503
- Squeeze bottles, with aquarium tubing, 519
- Stability, 33, 62–63, 65, 73–74, 79–80, 91, 102, 122, 125, 127, 136, 207, 222, 225, 237, 239, 243, 254–255, 257, 279, 298, 301, 304, 306, 343, 370, 386, 397, 405–406, 409, 411, 417, 432–433, 435–437, 444, 445, 449, 454, 456, 464–465, 471–472, 506, 508, 511, 513, 514, 516–517, 522, 524, 531, 537, 540, 543–544, 603, 685, 689
 of airway, 366, 368, 405, 455–456, 603
 of head and trunk, 28, 62, 71, 73–74, 78–79, 85, 90, 93, 122, 125, 129–130, 209, 217, 219, 243, 258, 295, 297–299, 302, 362, 404, 417, 443–444, 455, 474, 534, 541, 548, 683, 688
 in normal development, 53, 62–65, 67–68, 71, 73, 79, 81, 85, 89, 91, 93, 95, 125–126, 135–136, 363, 387, 389, 391–392, 397, 432, 467, 472, 476, 683, 685–686, 689

- and sensorimotor development, 62, 688–689
- Stability bite, 136, 362, 406, 449
- State of regulation, 32–33, 71, 541–542, 544, 546–548
- Sternum, 45, 420
- Stimulation, normalizing the response to, 448, 604, 607
- Stomach, 24, 34, 45–48, 50, 54–55, 98, 100, 102–103, 106–108, 112, 114–115, 117, 140, 142, 147–156, 192, 198, 201, 210, 265–266, 275, 297, 315, 320, 326–328, 333, 337–338, 342, 347, 490, 555, 557, 559–570, 574, 579, 586, 588–590, 592–594, 601–603, 611–612, 614–615, 629, 634
- Stomach emptying; *also* Gastric emptying, 148, 150–153, 155–156, 170, 200–201, 210, 326, 408, 560, 566–569, 593, 601
 delayed stomach emptying; *also* delayed gastric emptying, 98, 108, 110, 154, 328, 334, 347, 564, 568, 570, 579, 589
- Stomach motility, 108
- Straws, 39, 61, 68, 79–80, 91–92, 250, 287–288, 296, 358, 363, 371, 432–436, 458, 467–468, 473, 481, 500, 503, 519–520, 577, 605,
 adaptors for, 468, 473, 500
 criteria for, 500
 guidelines for use of, 500
 and the physically challenged child, 500
- Stress, and allergy, 12, 19, 22–23, 109, 112, 114, 324, 327, 342, 344–345, 350, 558–559, 574, 598, 602
- Structural Limitations, 101, 103, 105, 110, 190–192, 387, 389, 490–491, 575, 625
 gastrointestinal, 102
 oral-facial, 100
- Subcortical areas of brain, 159
- Suck; *see also* Sucking; Suckling, 25, 30, 33, 34, 54, 70, 72–75, 80–81, 89, 92–93, 101, 125, 134, 141, 186, 196, 226, 254, 261, 296, 393, 452–454, 460–462, 468, 471, 483, 497, 500, 508, 517–520, 541–542, 545–546, 556, 576, 588, 590, 601, 606–607, 613, 631, 691
 pattern of, 24, 71–79, 82, 95, 127, 206, 383, 385, 388, 463, 498, 540, 547
 and suckle, similarities and differences, 78
- Suck-swallow-breathe, 35, 44–45, 47–48, 51, 53, 56, 65, 67, 84–85, 89, 100–101, 104, 106, 110–111, 114, 142, 188, 210–211, 226, 250, 267, 328, 347, 366, 383–384, 388, 392–394, 438, 473–474, 539, 541–542, 547–548, 551, 590, 598, 626, 691, 693
- Suck-swallow reflex, 75
- Sucking; *see also* Suck; Suckling, 24, 33–34, 43–45, 47–48, 51–54, 60, 66, 71, 73, 76–82, 84–85, 89–95, 98, 101, 104–105, 123, 125, 127–128, 133–136, 142, 160, 195–196, 208, 213, 219, 226, 245, 249–250, 262, 269, 287, 294, 296–297, 355, 357, 367–370, 372, 374–376, 378, 380–384, 388, 398, 434–437, 452–453, 458–464, 466–469, 471, 474–475, 483, 486, 497–498, 500–501, 508, 517, 519–520, 529, 531, 543–546, 548, 563, 569–571, 575–576, 587–588, 595, 601, 606, 656, 658–660, 664, 683, 693
 before birth, 70, 75
 from bottle or breast, 54, 76–79
 with cleft palate, 78, 98, 101, 438, 649, 651–654, 657
 from cup, 79–80
 difficulty with, and bottle or breast-feeding, 98, 101, 116, 128, 206, 372, 383, 393, 462, 545
 facilitating food transitions, 74–75, 385, facilitating normal pattern of, 383–384, 469, 485, 491
 and flexion, 89
 and hypotonia, 373, 541
 negative pressure, 54, 652
 non-nutritive, 54, 69, 71–72, 118, 134, 383, 461, 540, 601, 673
 nutritive, 54, 71–72, 76, 78, 134, 383, 461, 673
 positive pressure, 54, 652
 in premature infants, 53, 72, 540–542, 545–548
 problems with, 128, 134, 383–384, 393, 541, 571, 613, 626
 rhythm in, 53, 79, 143, 384, 474, 599, 673
 soft solids from spoon, 81–82, 90
 swallowing and breathing, coordination of, 53, 56, 84, 100–101, 106, 110–111, 114, 167, 188, 206, 210, 267, 328, 366, 383, 388, 392–394, 438, 473–474, 539, 541–542, 551, 598, 626–627
 and suckling, similarities and differences, 78
 and tongue touch, 384, 462, 599
 and up-down tongue movement, 82, 367, 384
- Sucking pads, 51–53, 89–90, 531, 542, 548
- Suckle-swallow, 65, 77, 82–84, 90–91, 124, 208, 391, 449, 463, 469, 606, 610, 613
 rhythmical, 82, 606–607
- Suckling; *see also* Suck; Sucking, 66, 70, 75, 78, 81, 90, 238, 283, 384, 462, 477, 519, 617
 in drinking, 385
- patterns of, 64, 77–79, 90, 127, 136, 368, 383–385, 391, 437, 452–453, 460–462, 464, 477, 532, 607
 transition to sucking, 79, 355, 384–385, 437, 462, 477
- Suggestion, and learning, 253, 255–256, 354
- Sulcus, anterior and posterior, 47
- Supplemental nursing system, 613
 Lact-Aid, 462, 503, 654
- Surgery, and cleft palate, 656

439, 447, 575
- Tube-fed children, 25, 109, 115–116, 239,
295–296, 337–338, 346, 533–534, 560,
578, 585, 587, 589, 592–594, 597–599,
601, 606, 609–612, 615
breast-feeding in, 462, 545, 600, 613,
654
neurologically impaired, 608
- Tube feeding, 104, 114, 131, 179–181, 189,
211, 239, 250, 264, 266, 313, 380–381,
540, 578, 585, 595, 597, 602, 609–612,
625–626
and allergy, 346, 574
bolus feeding, 195, 295, 592, 602,
615–616
and diet, 109, 324, 337–338, 349,
593–594, 614
drip feeding, 560, 589, 592–593, 601,
615
Duodenal tube (Dou-tube), 590
and feeding therapy, 117, 388, 596
effects of, 117, 561, 586
enteral tube, 323, 588, 591
and gastroesophageal reflux, 19, 190,
601
gastrojejunal tube (GJ-tube), 590
gastrostomy tube (G-tube), 95, 152,
160, 193, 195–196, 200, 223, 258, 275,
314, 560, 565, 569, 586, 589–591, 616,
639–640
surgically placed, 589, 591
jejunostomy tube (J-tube), 568,
590–591
management of, 587, 591–592, 594
nasogastric tube (NG-tube), 101, 115,
148, 192, 195, 200, 538, 586–589, 591,
598, 639
nasojejunal tube (NJ-tube), 589,
590–591
orogastric tube (OG-tube), 115, 538,
549, 586–588, 591
parenteral tube, 588, 590
percutaneous endoscopic gastrostomy
tube (PEG), 152, 589–591
positioning for, 586, 592–593, 600
reasons for placement, 586, 592, 599
referral for, 596
removal of, 195, 588–589, 616
- U**
- Ultrasound, 77
advantages, 145–146
disadvantages, 146
- Unsustained bite, 86
- Upper esophageal sphincter (UES), *see*
esophageal sphincter; *see also* cricopharyn-
geal sphincter
- Upper gastrointestinal endoscopy, 152, 675
- Upper GI (UGI) Series; *also* barium swal-
low; *also* esophagram, 139, 142, 147, 156,
165, 469, 490–491, 565, 576
advantages, 148
limitations, 148–149
- Upper respiratory problems, and drooling,
390, 473, 684
- Utensils, 24, 26, 30, 32, 36, 39–40, 61, 68,
70, 94, 125, 133, 155, 163–164, 166, 171,
185, 203, 228, 237, 242, 267–268, 275,
354, 356, 358, 369, 372, 381, 387–388,
412, 415, 424, 430, 432, 441–442, 449,
467, 495–497, 503–504, 513–515,
522–524, 587, 613, 619, 631, 645, 663,
665, 667–668, 679
- Utility hand hold, 514, 515
- Uvula, 43, 48
- V**
- Valleculae, 135, 142, 146
collection of food in, 44, 47, 599
- Valving mechanism of feeding system, 46
- Velopharyngeal insufficiency, 128, 376, 438
- Velopharyngeal valve, 46
- Ventricular septal defect, 105
- Vertical midline, 64–65
- Vertical pattern of chewing, 64–65, 86–87,
91, 92
- Vests for positioning, 217, 279–280, 299,
353, 378, 404, 406, 448, 561, 674, 686
- Vestibular sensory information, 278–279,
524, 624, 644
alerting and calming variables, 679
and movement, 422
- Videofluoroscopic swallow study (VFSS);
also modified barium swallow study;
also cookie swallow study, 139, 140,
143–145
benefits, 141, 611
in combination with Upper GI Series,
142, 154
limitations, 140–141
stresses of the VFSS for children,
140–141
X-ray exposure, 141

- Videofluoroscopy, 139–146, 149, 154, 469, 605, 611
- Visual impairment, 132, 377, 659–668, 675, 677
effect on feeding, 132
effect on incidental learning and imitation, 284, 664–668
- Visual sensory information, 5, 125, 253, 283, 312, 314, 318, 320, 322, 329, 331, 339, 341, 473, 524, 677, 681
- Vitamins, 46, 312, 316–317, 335–336, 338, 349, 675
and medication, 319–320, 329, 331, 339, 341–342, 346
vitamin B, 318, 341
- Vocal cords, 44, 58, 146
- Vocal folds, 51, 122, 141, 470, 608
false, 44, 46, 50
true, 44, 46, 50
- Vocalization and sound play, facilitation of, 534, 596, 603, 607–608
- Vomiting, 23, 34, 45, 107–108, 114–115, 132, 142, 148, 152, 183, 250, 289, 312–313, 326, 341, 345–346, 384, 420, 489, 552, 555, 561–562, 569–570, 577–579, 619, 629, 631, 634, 645, 661, 670
types of, 559
acute or chronic illness, 557–559, 574
for attention, 29, 491–492, 559, 602
chronic GERD, 106, 559, 563–564, 566, 568, 591
for communication, 491–492, 559, 574
cyclical vomiting, 559
innocent vomiting, 559, 563
ridding of a substance, 559
structural problem, 490, 559, 575
tube feeding, 19, 109, 117, 190, 200, 559–560, 574, 576, 586, 589, 601, 639
- Weight gain, 23, 25, 28, 34, 72, 98, 110, 160, 191, 257, 312, 538, 542, 547, 562, 586, 601, 634, 651
calories and, 314, 316, 331–334, 542, 549, 552
fats and, 18, 314, 316, 331–334
protein and, 23, 314, 316, 333–334
- Whistles, and lip and respiratory control, 432, 434, 442, 497

Z

- Zinc, 10, 318, 322, 326, 331, 340, 677
deficiency, 212, 223, 282, 319–320, 329, 339, 341, 347, 580
and appetite, 212, 319–320, 339, 341, 580
and taste, 212, 223, 282, 319–320, 341, 347

W

- Water, 39, 46, 55, 69–70, 95, 109, 141, 144, 162, 201–202, 212–213, 226, 228–229, 235, 266, 275–276, 281–282, 287, 317, 331, 333–334, 344, 350–351, 414–415, 426–427, 432, 434, 440, 442, 448, 467–471, 483–484, 487, 489–491, 494, 520–521, 523, 571–573, 602, 605–606, 610, 613–614, 616, 643, 675, 680, 684
body's need for, 24, 56, 327–328, 348
- Weight, and food and utensil choices, 9, 23, 74, 338, 625, 643, 675
- Weight bearing, and stability, 62, 64, 243
