

Unit 1: What is a variable?	2
Lesson 1: Unknown Values	5
Lesson 2: Values that Change	13
Lesson 3: Application and Assessment	21
Unit 2: What is the language of algebra?	30
Lesson 1: Expressions and Equations	33
Lesson 2: Inequalities	41
Lesson 3: Application and Assessment	49
Unit 3: Why do the rules for operations on signed numbers work?	58
Lesson 1: Addition and Subtraction	61
Lesson 2: Multiplication and Division	69
Lesson 3: Application and Assessment	77
Unit 4: What is a balanced equation?	86
Lesson 1: Balancing Scales	89
Lesson 2: Working with Equations	97
Lesson 3: Application and Assessment	105
Unit 5: Why do the laws of exponents work?	114
Lesson 1: Multiplication and Power of a Power	117
Lesson 2: Division and Negative & Zero Exponents	125
Lesson 3: Application and Assessment	133
Unit 6: How do I work with square roots?	142
Lesson 1: Simplifying Radicals	145
Lesson 2: Operations on Radical Expressions	153
Lesson 3: Application and Assessment	161
Unit 7: What is absolute value?	170
Lesson 1: Absolute Value of Numerical Expressions	173
Lesson 2: Generalizing Rules about Absolute Value	181
Lesson 3: Application and Assessment	189
Glossary	A1
