

Table of Contents

Introduction	7
Chapter 1—Disorders of Voice: What Can Go Wrong	9
Disorders Related to Vocal Abuse and Misuse	9
Disorders with Medically-Related Causes	13
Voice Problems Caused by Congenital Medical Disorders	15
Chapter 2—Clinical Evaluation of Voice	16
Screening and Referrals	16
Medical Evaluation	17
Components of a Clinical Evaluation	18
Tips for Determining Hypernasality from Hyponasality	22
s/z Ratio	23
Appendix 2A: Observation of Child's Voice Use	25
Appendix 2B: Parent Letter	26
Appendix 2C: What Is a Voice Disorder?	27
Appendix 2D: Case History	28
Appendix 2E: Clinical Voice Evaluation Checklist	30
Appendix 2F: Summary Template for Voice Evaluation	33
Appendix 2G: ICD-9-CM Codes	34
Chapter 3—Instrumental Evaluation of Voice	35
Acoustic Measures	36
Frequency	36
Perturbation Measures	37
Intensity	38
Signal-to-noise Ratios	38
Aerodynamic (Physiologic) Measures	39
Visualization	40
Chapter 4—Planning and Implementing Intervention	42
Integrating Evaluation Information	42
The clinical evaluation	42
The medical evaluation	42
The instrumental voice evaluation	43
Gaining Support for Voice Treatment	43
Using a Reinforcement System	46
Managing Related Medical Problems	48
Determining Prognosis and Length of Treatment	48
Insurance/Reimbursement	49
Developing a Treatment Plan/IEP	49
Documenting Progress During Therapy	51
Appendix 4A: Respiratory, Phonatory, and Resonance Systems	54
Appendix 4B: Chart for Recording Points	55
Appendix 4C: Reducing Reflux	56
Appendix 4D: Master List of Long-Term Goals, Short-Term Goals, and Treatment Objectives	57
Appendix 4E: Sample Treatment Sequences for Vocal Problems	62
Appendix 4F: Treatment Plan and Discharge Summary	64

Table of Contents, *continued*

Appendix 4G.1: Sample Treatment Plan for Vocal Abuse with Vocal Hygiene (generic)	65
Appendix 4G.2: Sample Treatment Plan for Vocal Abuse with Vocal Hygiene (detailed)	66
Appendix 4G.3: Sample Discharge Summary for Vocal Abuse with Vocal Hygiene	67
Appendix 4H: Sample Treatment Plan for Vocal Misuse	68
Appendix 4I: Sample Treatment Plan for Vocal Hyperfunction	69
 Chapter 5—Treating the Hyperfunctional Voice	 70
Types of Hyperfunction	70
Treating Hyperfunction	72
Short-Term Goal and Treatment Objectives	73
Determining where the muscle tension is occurring	74
Reducing muscle tension	75
Appendix 5A: Relaxed Phonation vs. Strained Phonation	79
Appendix 5B: Reducing Tension in the Phonatory Muscles	80
Appendix 5C: Reducing Tension in the Oro-Pharyngeal Muscles	81
 Chapter 6—Treatment for Vocal Abuse	 83
Short-Term Goal and Treatment Objectives for Vocal Abuse	83
Specific Lessons to Teach	83
Identifying vocal abuses	84
Increasing awareness of frequency of vocal abuse	85
Obtaining baseline data	85
Identifying alternatives to vocal abuse	88
Reducing abuse/substituting alternative behaviors	89
Vocal Hygiene	90
Short-Term Goal and Treatment Objectives for Vocal Hygiene	91
Appendix 6A: Things I Do That Hurt My Voice	93
Appendix 6B: Chart to Collect Baseline Data on Vocal Abuse	94
Appendix 6C: Vocal Abuse Cumulative Data Sheet	95
Appendix 6D: Things I Can Try Instead of Using My Voice	96
Appendix 6E: Things I Can Do to Interact Better with Others	98
Appendix 6F: Things I Can Do Instead That Won't Hurt My Voice	99
Appendix 6G: Chart to Record Behaviors to Reduce and Substitute	100
 Chapter 7—Treatment for Respiration	 101
Short-Term Goal and Treatment Objectives for Respiration	101
Demonstrating inappropriate and appropriate patterns	102
Practicing diaphragmatic breathing	104
Breathing Correctly During Speech Tasks	105
Using Negative Practice	107
Relaxing the Muscles	107
Appendix 7A: Breathing Practice	108
Appendix 7B: Utterances of Increasing Lengths	109
Appendix 7C: Questions to Elicit Short Answers	112
Appendix 7D: Take-a-Breath Characters	113
Appendix 7E: Topics for Monologues and Conversations	114
Appendix 7F: Ways to Elicit List Responses	115
 Chapter 8—Treatment for Phonation	 116
Short-Term Goals and Treatment Objectives	116
Explaining How Phonation Occurs	117
Volume Problems	117

Table of Contents, continued

Pitch Problems	120
Short-Term Goal and Treatment Objectives for Pitch	121
Voice Onset and Quality	123
Short-Term Goal and Treatment Objectives for Onset and Quality	123
Using Instrumentation for Phonation Goals	125
Appendix 8A: Loudness Level Pictures	126
Appendix 8B: The Loudness Match Game	127
Appendix 8C: Record Form for Volume	128
Appendix 8D: Pitch Picture Pairs	129
Appendix 8E: High and Low Pitch Characters	130
Appendix 8F: Vowel Words, Phrases, and Sentences	131
Appendix 8G: Vowel Sentences	132
Appendix 8H: Onset Pairs	133
Appendix 8I: "H" Words	134
Appendix 8J: Word Pairs Beginning with Vowels and "H"	135
Appendix 8K: Easy Onset Words and Sentences	136
 Chapter 9—Oral-Nasal Resonance and Tone Focus	 137
Hypernasality	137
Short-Term Goal and Treatment Objectives for Hypernasality	138
Tone Focus	138
Short-Term Goal and Treatment Objectives for Tone Focus	139
Discrimination of Hypernasal Resonance	140
Tone Focus in the Mouth	142
Tone Focus in the Mask	143
Appendix 9A: Oral and Nasal Resonance Balance	147
Appendix 9B: Sentences With/Without Nasal Phonemes	148
Appendix 9C: Words and Sentences with Open Vowels	150
Appendix 9D: Phrases and Sentences with Back Vowels and Back Consonants	152
Appendix 9E: Phrases and Sentences with Front Vowels and Front Consonants	153
Appendix 9F: Steps of Tone Focus	154
Appendix 9G: Changing the Parameters of Speech	155
Appendix 9H: Words, Phrases, and Sentences Beginning with "m" or "n"	156
 Chapter 10—Paradoxical Vocal Fold Dysfunction (PVFD)	 157
What Is PVFD?	157
Comprehensive Approach to Treatment	159
Goals and Treatment Objectives	160
Prognosis and Typical Progression of Recovery	161
Recognizing tension	162
Appendix 10A: Vocal Cord Dysfunction Fact Sheet	166
Appendix 10B: Breathing: Out and In for PVFD	167
Appendix 10C: Important Tips to Remember During Physical Activity	168
 PowerPoint Presentation	 169
 Resources	 173
 References	 174
