# EDMARK READING PROGRAM SECOND EDITION

**READING LEVEL: K-3**  
**INTEREST LEVEL: K-12**

**An effective alternative to phonics!**

The *Edmark Reading Program* has long helped beginning readers of all ages who need an alternative to phonics to learn to read. The key to this success is the program's use of a carefully sequenced, highly repetitive word recognition method combined with errorless learning. The program motivates students by breaking learning into steps that ensure that even the poorest readers achieve over 90% accuracy. This approach eliminates incorrect responses and helps students view themselves as readers.

The *Edmark Reading Program* serves as a sole reading program or as a supplement to a phonics-based or other type of reading program. In Level 1, students learn 150 frequently seen sight words from kindergarten and Grade 1 reading levels, and the endings -s, -ed, and -ing. In Level 2, students learn an additional 200 words from Grades 1-3 reading levels.

Students begin by recognizing and reading a new word in isolation and then in the context of phrases, sentences, and stories. They use their newly learned words in a variety of reading activities to reinforce new learning, ensure automatic word recognition, and facilitate the generalization of their reading skills to new and varied situations.

## Print and Edmark Online

The program is available in print and as Edmark Online, a web-based software version.

Each version can be used independently or in combination, providing educators with versatile tools to help students achieve reading success. The print and online versions have the same lesson structure in the same lesson sequence.

In Edmark Online, students experience audio directions, colorful graphics and animated guides, and constant positive feedback. Students can use any device with Internet access to interact with the program.

Edmark Online includes these features:

- Mastery Test provides placement and progress data.
- Progress monitoring is automatic.
- Teachers can customize and individualize the program.
- Students can click on sentences and stories to hear them read aloud.
- Homework, Bingo, Games, and more can be printed for off-line use.

**Interpreting the Results**

In this chapter, we discuss how to record, analyze, and interpret Mastery Test results. Topics include completing the Summary Form, the various types of information printed by the test, and recommendations for student instruction.

**Completing the Summary Form**

The Summary Form is used to record the student's Mastery Test performance over as many as three test administrations and to document recommendations for instruction based on these results. An example of a Summary Form, page 1, is provided for items 1 through 10. The percentage of words correct for each item is printed on page 1.

**Step 1: Identifying Information**

The student's name, date of test, age, school name, grade, and student's teacher as well as the date for the domain charting are included in this section.

**Step 2: Scoring**

Transfer data from the Scoring Form to page 2 of the Summary Form.

1. In Subtests 1, 2, and 3, write 1 in the box below each Word Group to indicate a correct response. Leave the box blank for an incorrect response. In Subtest 4, write 1, 2, or 3 in the box below each Word Group to indicate the number of correct responses to each Word Group of items.

2. Based on the test for each Word Group in the circle below each column, check the Mastery Test box below each item of the test.

**Word Group Manual**

In the manual edition, that matches the number of the test administration, check the Mastery Test box in the Word Group for which the student has demonstrated mastery.

**% Words Correct**

In the manual edition, that matches the number of the test administration, place an X in the box on the right that indicates the percentage of words correctly determined by the student.

The *Edmark Reading Program Functional Words Series—Second Edition* teaches 400 functional sight words. The *Functional Words Series* can be implemented as part of a functional living and community skills program or as a supplement to other reading programs.

The *Functional Words Series* uses the well-known word recognition method from the *Edmark Reading Program*, involving repeated exposure to target words within a variety of engaging learning activities. Students learn 100 new words at a moderate pace in each of four functional areas: Fast Food/Restaurant Words, Grocery Words, Job/Work Words, and Signs Around You. Components include:

**Teacher's Guide—**This detailed program guide addresses the research supporting the program and fully describes the program components and how to implement them. The Teacher's Guide also includes answer keys for the Stories Activities and the Reading and Social Skills Games lesson plans.

**Reading and Social Skills Games—**Games reinforce the functional vocabulary and promote generalization by requiring students to use reading skills in a social setting. Students also develop social skills and a basic understanding of various game-playing procedures. The Games include a full-color gameboard, playing pieces, and dice.

**Stories and Stories Activities—**

The Stories are in a standard paperback format. Each of the five Stories books contains 10 stories—1 story for every two words taught. The stories throughout the series include a common cast of characters, with a few other characters introduced to facilitate various story lines. Character Illustrations are included as printable PDFs. Students may use the illustrations of the story characters to follow the various people they read about and as an aid to comprehending the stories. Also available separately.

**Word Recognition—**Two spiral-bound books contain the target words in order of presentation. Target words are first introduced within the Word Recognition activity.
