

About the Authors

Jean Elbaum is Clinical Director at Transitions of Long Island, a subsidiary of the North Shore-Long Island Jewish Health System in Manhasset, New York. She has worked at Transitions since its inception in 1988. She received the B.A. and M.A. degrees in Psychology and the Ph.D. degree in Rehabilitation Counseling from New York University. Her experience in neurorehabilitation began in 1980 when she completed an internship at the Cognitive Rehabilitation Program at New York University-Bellevue Hospital. Dr. Elbaum's primary clinical interests include rehabilitation of memory and awareness deficits. She has presented more than 25 papers at national conferences. Dr. Elbaum is married and has two sons. She is a runner and enjoys reading.

Peggy Kramer is Senior Speech-Language Pathologist at Transitions of Long Island. She received the M.S. degree in Communication Disorders from Adelphi University, Garden City, New York; and the B.A. TSHH (Teacher of the Speech and Hearing Handicapped) degree from Hofstra University, Hempstead, New York. She is an Adjunct Clinical Instructor and serves on the School of Education Advisory Committee at Adelphi University. Peggy has worked at Transitions of Long Island since 1992. She is the coordinator of the Graduate Student Internship Program, a case manager and coauthor of Mempal, a memory book and therapeutic intervention method. In 1999, with Dr. Jean Elbaum, she presented Mempal at Health South Braintree Rehabilitation Hospital's 20th Annual Neurorehabilitation Conference. That same year, Peggy Kramer and Carrie Dulaski presented a poster session at the ASHA convention in San Francisco. In 2001, Peggy and Dr. Elbaum presented three papers at the Williamsburg Traumatic Brain Injury International Conference. Peggy and her husband, Ed, have three grown sons. They enjoy family vacations, gardening, sailing and kayaking.

Deborah Benson is Executive Director of Transitions of Long Island. She received the Ph.D. degree in Clinical Neuropsychology from the Graduate Center of the City University of New York and is a New York State licensed Clinical Neuropsychologist. Dr. Benson joined Transitions in 1993. Her memberships include the American Psychological Association, National Academy of Neuropsychology, International Neuropsychological Society and the Brain Injury Association. She is certified as a clinical instructor and clinical examiner by the American Academy for the Certification of Brain Injury Specialists; in neurofeedback by the National Registry of Neurofeedback Providers; and by the American Psychological Association in

the treatment of alcohol and other psychoactive substance use disorders. She is listed in the National Register of Health Service Providers in Psychology. Dr. Benson has presented on numerous topics related to brain injury rehabilitation at regional and national conferences. Deborah and her partner live in New Jersey. She enjoys her professional activities and her interests include, yoga, drumming and travel.

Carrie Dulaski is an occupational therapist at For Kids, a private practice specializing in the treatment of infants through teenagers located in Far Rockaway, New York. She graduated cum laude from Springfield College with a B.S. degree in Rehabilitation Services and received the M.S. degree in Occupational Therapy from Columbia University. In her final year at Columbia University, Carrie and her colleagues presented their Master's project at the American Occupational Therapy Association conference in Baltimore. Their project examined how mothers and fathers play with their children with disabilities. After graduating, Carrie joined the occupational therapy staff at Transitions of Long Island. In 1999, she and Peggy Kramer presented at the ASHA conference in San Francisco regarding the collaboration of occupational therapists and speech-language pathologists. Carrie and her husband live on Long Island, New York. She enjoys cooking, arts and crafts, and working out at the gym.
