Foreword	xiii
Preface	xv
Introduction	1
1. Supine	11
1.1 Visual Tracking	11
1.2 Upper-Extremity Reaching for Self-Exploration With the Hands and Elongation of the Shoulder Girdle Muscles	14
1.3 Supine Flexion With Shoulder Girdle Depression	19
1.4 Tactile and Visual Body Exploration With Hands and Eyes	24
1.5 Supine to Sit	28
2. Supine Rolling	31
2.1 Hands to Feet: Symmetrical Rolling	31
2.2 Hands-to-Knees Symmetrical Rolling: 4-Month Roll	34
2.3 Hands-to-Knees Roll to Asymmetrical Sidelying: 5-Month Roll	37
2.4 Asymmetrical Sidelying Roll to Prone: 6-Month Roll	42
3. Prone on Lap	47
3.1 Prone on Lap	47
3.2 Prone Lateral Weight Shifts	50
3.3 Prone to Sidelying on Lap: Tactile and Visual Body Exploration	53
3.4 Prone to Sit With Lateral Flexion	56
3.5 Prone to Sit With Extension and Rotation	61
4. Prone on Ball	65
4.1 Prone Extension: Forward Weight Shift for Trunk and Hip Extension and Forward Protective Extension	65
4.2 Upper-Extremity Weight Bearing and Weight Shifts	70
4.3 Lateral Righting Reactions and Sideways Protective Extension	74
4.4 Prone to Sit on the Ball	78
5. Prone on Floor	81
5.1 Shoulder Girdle Facilitation for Lateral Weight Shifts	81
5.2 Sidelying: Play in Sidelying	83
5.3 Prone to Sitting	87

5.4	Prone to Runner's Stretch Position	90
5.5	Prone Straddle	94
6.	Prone on Bolster	97
6.1	Sitting to Prone on Bolster: Symmetrical Hip Extension	97
6.2	Prone to Sidelying With Lower-Extremity Dissociation	100
6.3	Prone to Sidelying With Lower-Extremity Weight-Bearing Progression	104
6.4	Climbing: Quadruped	108
6.5	Climbing: Bear Standing	113
7.	Floor Transitions	117
7.1	Prone to Lower-Extremity Dissociation	117
7.2	Sitting to Quadruped to Kneeling	121
7.3	Long-Sit to Quadruped With Forward Vaulting	124
7.4	Long-Sit to 5-Month Position	128
7.5	Prone to Standing	132
8.	Sitting on Lap	139
8.1	Upper-Extremity Forward Reaching While Sitting	139
8.2	Lateral Weight Shifts/Lateral Righting: "Happy Face"	141
8.3	Lateral Weight Shifts/Lateral Righting: Elongation of Scapulo-Humeral Muscles	144
8.4	Lateral Weight Shifts With Shoulder Girdle Depression	148
8.5	Diagonal Weight Shifts: Rotation With Flexion	152
8.6	Diagonal Weight Shifts: Rotation With Extension Facing Away From Therapist	157
8.7	Diagonal Weight Shifts: Rotation With Extension Facing Therapist	161
9.	Sitting on Lap Sequences	165
9.1	Rotation to Stand With Extension: Facing Therapist	165
9.2	Rotation to Stand With Extension: Facing Away From Therapist	169
9.3	Rotation to Stand at a Table	173
9.4	Rotation to Half-Kneeling	178
10.	Sitting on Ball	183
10.1	Trunk-Pelvic-Hip Neutral Alignment and Sensory Preparation	183
10.2	Trunk-Pelvic-Hip Neutral Alignment: Weight Shifts	185
10.3	Lateral Weight Shifts for Simultaneous Activation of Flexors and Extensors	190

10.4	Diagonal Weight Shifts: Rotation With Extension	193
10.5	Diagonal Weight Shifts: Rotation With Flexion	200
11.	Sitting on Bolster	203
11.1	Bench-Sitting on Bolster: Sagittal Plane Weight Shifts	203
11.2	Neutral Alignment of Trunk, Pelvis, and Hips	207
11.3	Sitting on Bolster: Anterior Weight Shifts	209
11.4	Half-Kneeling From a Bolster	215
11.5	Rotation to Step-Stance: Face-Side Weight Shift	219
12.	Standing and Walking	223
12.1	Symmetrical Stance: Weight Shift to the Lateral Borders of the Feet	224
12.2	Standing to Sitting	226
12.3	Lateral Weight Shift With Unilateral Hip Flexion	229
12.4	Symmetrical Stance: Face-Side Rotation	232
12.5	Lateral Weight Shifts: Sideward Cruising	234
12.6	Facilitation From the Rib Cage and Pelvis: Sagittal Plane Control	237
12.7	Facilitation From the Rib Cage and Pelvis: Frontal Plane Control	240
12.8	Facilitation From the Hips	242
