

About the Authors

SUSANNE SMITH ROLEY, M.S., OTR has specialized in the application of sensory integration within occupational therapy throughout her more than 20 years of practice. She received a bachelor of science degree in Occupational Therapy at Indiana University and master of science in Allied Health Sciences at Boston University. She subsequently trained with Dr. A. Jean Ayres and participated in the re-standardization of the *Sensory Integration and Praxis Tests*. Susanne is the project director for the Comprehensive Program in Sensory Integration in the Department of Occupational Science and Occupational Therapy at the University of Southern California. She is in private practice in Orange County and is Coordinator of Education and Research at Pediatric Therapy Network. She is an internationally recognized author and lecturer on the theory and application of sensory integration.

ERNA IMPERATORE BLANCHE, PH.D., OTR, FAOTA has been an occupational therapist for more than 20 years. She graduated from the University of Chile as an occupational therapist, has a masters degree in Special Education from Teacher's College Columbia University, and a doctorate in Occupational Science from the University of Southern California. She studied with Dr. A. Jean Ayres through OT610, the clinical training program at the University of Southern California, and is a primary instructor for this ongoing program. Erna is co-owner of Therapy West, a pediatric center in Los Angeles and is an adjunct faculty member at the Department of Occupational Science and Occupational Therapy at the University of Southern California. She has published and lectured extensively on the topics of sensory integration, neurodevelopmental treatment, play, and occupational science in the United States and abroad.

The authors/editors (left to right) Erna Imperatore Blanche, Susanne Smith Roley, and Roseann Schaaf in Kruger National Park, South Africa.

ROSEANN C. SCHAAF, M.Ed., OTR/L, FAOTA is the vice chairman and director of graduate programs in the Department of Occupational Therapy at Thomas Jefferson University. She earned her bachelor's degree in Occupational Therapy and master's degree in Education from Temple University and is completing her doctorate in Neural and Behavioral Sciences at Bryn Mawr College. Roseann implements the theoretical principles of sensory integration throughout her clinical practice, research, and teaching. She is the author of numerous articles and chapters on various aspects of sensory integration theory and practice, and has lectured extensively in the United States and abroad. Currently, Roseann is working with Dr. Lucy Jane Miller to investigate the neuro-physiologic substrates of sensory modulation dysfunction, a sub-type of sensory integrative dysfunction.
