

Preface ix

CHAPTER 1 Amyotrophic Lateral Sclerosis 1

What Is Amyotrophic Lateral Sclerosis?	1
What Changes in Neural Systems Are Associated With ALS?	2
What Symptoms Are Associated With ALS?	3
What Is Known About the Cause of ALS?	3
What Is the Typical Course of ALS?	4
How Is the Diagnosis of ALS Made?	5
What Drugs Are Used to Manage ALS?	6
What Is the Role of Rehabilitation Medicine in the Management of ALS?	7
Do People With ALS Experience Cognitive Changes?	10
What Is Emotional Lability, and Why Is It Associated With ALS?	12
What Respiratory Problems Are Associated With ALS?	12
SPEECH DISORDERS 18	
What Speech Characteristics Can Be Expected in ALS?	18
What Contributes to Changes in Intelligibility in ALS Dysarthria?	20
How Rapidly Do Speech Changes Occur in ALS?	20
What Are the Stages of Speech and Swallowing Disorders?	23
What Approaches to Speech Treatment Are Available to Speakers With ALS?	29
SWALLOWING DISORDERS 42	
What Is the Rate of Progression of Swallowing Problems in ALS?	42
How Is Swallowing Function Assessed in People With ALS?	43
What Approaches to Management Are Available for Swallowing Disorders?	44
What Problems With Saliva Management Are Common?	49
How Are Problems With Saliva Managed?	50
How Is Aspiration in ALS Managed?	52
Appendix 1.1: ALS Severity Scale	55
References	59

CHAPTER 2 Parkinson's Disease 69

What Is Parkinson's Disease?	69
What Changes in Neural Systems Are Associated With Parkinson's Disease?	70
What Symptoms Are Associated With Parkinson's Disease?	71

How Is the Diagnosis of Parkinson's Disease Made?	73
How Do the Parkinson Plus Syndromes Differ From Parkinson's Disease?	73
How Rapidly Does Parkinsonism Progress?	75
What Is the Medical Management of Parkinson's Disease?	77
What Other Problems Are Associated With Parkinson's Disease?	80
SPEECH DISORDERS	84
What Speech Characteristics Are Associated With Parkinson's Disease?	84
What Are the Characteristics of the Dysarthria Accompanying the Parkinson Plus Syndromes?	86
How Are the Components of the Speech Production Mechanism Altered in Parkinson's Disease?	86
What Is the Typical Progression of Dysarthria in Parkinson's Disease?	88
What Is the Impact of Treatment on Speech in Parkinson's Disease?	90
What Issues Are Particularly Important in Assessment of Parkinsonian Dysarthria?	95
What Approaches to Speech Treatment Are Available?	95
SWALLOWING DISORDERS	103
Why Do Individuals With Parkinson's Disease Experience Swallowing Problems?	103
What Swallowing Characteristics Are Associated With Parkinson's Disease?	104
What Is Progressive Supranuclear Palsy, and How Does It Differ From Parkinson's Disease?	105
How Is Swallowing Evaluated in Parkinson's Disease?	106
What Approaches to Treatment Are Available for Swallowing Disorders in Parkinson's Disease?	107
References	111

CHAPTER 3 **Huntington's Disease**

121

What Is Huntington's Disease?	121
What Changes in Neural Tissue and Neural Systems Are Associated With Huntington's Disease?	121
What Symptoms Are Associated With Huntington's Disease?	122
How Is the Diagnosis of Huntington's Disease Made?	124
How Is Functional Progression Measured?	125
How Does the Inheritance of Huntington's Disease Influence Management of Speech and Swallowing Problems?	126
What Is the Medical Management of Huntington's Disease?	126
SPEECH DISORDERS	127
What Speech Characteristics Are Associated With Huntington's Disease?	127
What Management Approaches Are Available for Speech and Cognitive Language Difficulties in Huntington's Disease?	128

SWALLOWING DISORDERS	135
What Swallowing Characteristics Are Associated With Huntington's Disease?	135
How Is Swallowing Function in Huntington's Disease Evaluated?	135
What Are Approaches to Management for Swallowing Disorders in Huntington's Disease?	137
Appendix 3.1: Establishing a Yes/No System	139
References	141

CHAPTER 4 **Multiple Sclerosis** **145**

What Is Multiple Sclerosis?	145
What Changes in Neural Tissue or Neural Systems Are Associated With MS?	145
Who Is at Risk for MS?	146
How Has Magnetic Resonance Imaging Contributed to the Understanding of MS?	146
What Are the Symptoms of MS?	147
How Is the Diagnosis of MS Made?	150
What Is the Typical Course of Changing Function in MS?	150
What Is the Role of Drugs in the Management of MS?	152
What Is the Role of Rehabilitation in the Management of MS?	153
How Is Employment Affected by MS?	154
SPEECH DISORDERS	156
What Are the Typical Speech Characteristics of People With MS?	156
How Are Spasticity and Ataxia Apparent in Dysarthria?	156
How Common Is Dysarthria in MS?	157
What Speech Assessment Issues Are Particularly Important in MS?	158
How Is Dysarthria in MS Managed?	160
SWALLOWING DISORDERS	165
How Often Do Swallowing Problems Occur in MS?	165
What Are the Characteristics of Swallowing Disorders in MS?	166
What Are the Typical Interventions for Swallowing Difficulty in MS?	166
References	169

CHAPTER 5 **Speech and Swallowing Examination** **175**

History	175
Physical Examination	177
Assessment of Speech and Swallowing Function	183
Appendix 5.1: Clinical Examination of Speech and Swallowing	185
Appendix 5.2: The Levels of Speech Usage Categorical Rating Scale	189
Appendix 5.3: Swallowing Disorders Interview Worksheet	191
References	193

CHAPTER 6 **Conversation and Interaction in
Degenerative Diseases**

195

Steven J. Bloch

Importance and Organization of Conversation	195
Impact of Dysarthria on Conversation and the Speech-Language Pathologist's Role	196
Assessment of Conversation	198
Profiles of Conversation Partnership	200
Managing Conversation	203
Appendix 6.1: Semistructured Interview Template for Conversation	211
Appendix 6.2: Observing Conversation and Interaction in Progressive Diseases	215
References	219
Glossary: Operational Definitions	221
Index	227
About the Authors	245
