- Stereotyping 182
- Pity 186
- Role Entrapment 188
- Lowered Expectations, or “Let’s Give Those Poor Disabled People a Break” 191
- Lack of Privacy 194
- Hypervisibility and Over-observation 195
- Solo Status 200
- Token Status 203
- Paternalism 203
- Infantilization 207
- Viewing PWDs as Objects 210
- Viewing PWDs as Animals 212

Unnecessary Dependence 215
Equal Social Status Relationships 223

SECTION 3 ————— **THE INDIVIDUAL AND DISABILITY • 227**

Chapter 6: The Individual's Response to Disability 229

View From the Outside Versus Life on the Inside 231
Acceptance of Disability or Response to Disability 233
What Is a Good Response to a Disability? 235
What Is a Poor Response to a Disability? 236
The Stage Model of Adaptation to Disability 237
The Stages of Response in Disability 239
Transcendence 251
Advantages of the Stage Theory 261
Cautions in Implementing the Stage Theory 263
Appendix 6.A: First-Person Narratives of People With Disabilities 267

Chapter 7: The Onset and Diagnosis of the Disability 269

Factors That Affect the Impact of the Onset of Disability 270
Time of Onset 271
Parents of Children With Congenital Disabilities 274
Atypical Childhood Experiences 279
Prelingual Deafness 284
Congenital Blindness or Blindness Acquired in Infancy 287
Residential Schools 288
Acquired Disabilities 291
The Developmental Stage of Acquisition 295

Chapter 8: Type of Onset and the Individual's Response 309

Type of Onset 310
The Impact of a Long Prediagnosis Period 312
The Course of the Disability 316
The Phases or Stages of the Course of a Disability 318
The Four Types of Courses 319
Degenerating Episodic Disabilities 330
Communication Difficulties 330
The Meaning of the Loss of Functioning 332

x CONTENTS
