## CHAPTER 1

### Anatomy, Neuroanatomy, and Physiology of the Speech Mechanism    xxiv

<b>Respiration: Structures and Processes</b>	<b>1</b>
Respiration Patterns During Speech Production	1
Framework of Respiration	2
Muscles of Respiration	6
<b>Phonation: Structures and Processes</b>	<b>8</b>
The Larynx	8
Laryngeal Structures and Cartilages	9
Intrinsic Laryngeal Muscles	11
Extrinsic Laryngeal Muscles	12
Vocal Folds	13
Physiology of Phonation	14
Neuroanatomy of the Vocal Mechanism	16
<b>Resonance and Articulation: Structures and Processes</b>	<b>17</b>
Fundamentals of Resonance	17
Fundamentals of Articulation	18
<b>Neuroanatomy and Neurophysiology: The Nervous System</b>	<b>30</b>
<b>Neurons and Neural Transmission</b>	<b>30</b>
Anatomy and Physiology of Nerve Cells	30
Neural Transmission	31
<b>The Peripheral and Autonomic Nervous Systems</b>	<b>33</b>
Peripheral Nervous System	33
Autonomic Nervous System	43
<b>The Central Nervous System</b>	<b>44</b>
Basic Principles	44
The Brainstem	44
Reticular Activating System	48
Diencephalon	49
Basal Ganglia	49
The Cerebellum	50
The Cerebrum	51
Pyramidal System	56
Corticobulbar Tract	57
Extrapyramidal System	57
Connecting Fibers in the Brain	60
The Cerebral Ventricles	61

Protective Layers of the Brain	62
Cerebral Blood Supply	62
<b>Chapter Highlights</b>	<b>67</b>
<b>Study and Review Questions</b>	<b>68</b>
<b>Study and Review Answers</b>	<b>70</b>

---

## CHAPTER 2

### Physiological and Acoustic Phonetics: A Speech Science Foundation 72

<b>Basic Principles and Definitions</b>	<b>73</b>
Definitions	73
<b>Phonetic Transcription</b>	<b>75</b>
The International Phonetic Alphabet	75
Broad Phonetic Transcription	75
Narrow Phonetic Transcription	75
<b>Production of Segmentals: Consonants and Vowels</b>	<b>77</b>
Consonants and Vowels: The Syllable as a Unit	77
Classification Systems	78
Consonants	80
Vowels	84
<b>The Effects of Context on Speech Sound Production</b>	<b>88</b>
Dynamics of Speech Production	88
Suprasegmentals	88
<b>Speech Science: Physiological Phonetics, Acoustic Phonetics, and Speech Perception</b>	<b>90</b>
Acoustics: Basic Definitions	90
<b>Introduction to the Study of Sound and Acoustic Analysis of Speech</b>	<b>92</b>
Sound Wave Generation and Propagation	92
Frequency and Pitch	93
Amplitude and Loudness	94
Sound Pressure Level and Hearing Level	94
Introduction to the Acoustic Analysis of Speech	95
<b>Chapter Highlights</b>	<b>96</b>
<b>Study and Review Questions</b>	<b>97</b>
<b>Study and Review Answers</b>	<b>100</b>

---

## CHAPTER 3

### Language Development in Children 102

#### Terms and Definitions 103

Morphology 103

Syntax 105

Semantics 106

Pragmatics 108

#### Typical Language Development: Developmental Milestones 109

Role of the Caregiver in Language Development 109

Birth–1 Year 110

1–2 Years 112

2–3 Years 114

3–4 Years 117

4–5 Years 119

5–6 Years 120

6–7 Years 122

7–8 Years 123

Language and Literacy Development in the School-Age Years 124

#### Theories of Language Development 125

Behavioral Theory 125

Nativist Theory 126

Cognitive Theory 127

Information-Processing Theory 128

Social Interactionism Theory 131

#### Chapter Highlights 133

#### Study and Review Questions 134

#### Study and Review Answers 140

---

## CHAPTER 4

### Language Disorders in Children 142

#### Introduction to Children With Language Disorders 143

Description of Language Disorders in Children 144

Risk Factors for Language Disorders in Children 144

#### Children With Specific Language Impairment 145

Characteristics of Children With Specific Language Impairment 145

<b>Children With Language Problems Associated</b>	
<b>With Physical and Sensory Disabilities</b>	<b>149</b>
Intellectual Disability	149
Autism Spectrum Disorder	151
Brain Injury	153
<b>Children With Language Problems Related</b>	
<b>to Physical and Social–Environmental Factors</b>	<b>156</b>
Language Problems Related to Poverty	156
Language Problems Related to Neglect or Abuse	158
Language Problems Related to Parental Drug and Alcohol Abuse	159
Language Problems Related to Attention-Deficit/Hyperactivity Disorder	160
<b>Assessment Principles and Procedures</b>	<b>162</b>
Language Assessment: General Principles and Procedures	162
Assessment of Infants and Toddlers	166
Assessment of Preschool and Elementary-Age Children	169
Assessment of Adolescents	171
<b>Treatment Principles and Procedures</b>	<b>174</b>
General Principles	174
Specific Techniques and Programs	176
Augmentative and Alternative Communication	181
<b>Chapter Highlights</b>	<b>184</b>
<b>Study and Review Questions</b>	<b>186</b>
<b>Study and Review Answers</b>	<b>192</b>

---

## CHAPTER 5

### Speech Sound Development and Disorders 194

<b>Foundations of Articulation and Phonology</b>	<b>195</b>
Basic Definitions	196
<b>Acquisition of Articulatory and Phonological Skills: Typical Development</b>	<b>197</b>
Theories of Development	197
Infant Development: Perception and Production	199
Typical Articulation Development in Children	201
Overall Intelligibility	201
Typical Phonological Development in Children	203
<b>Speech Sound Disorders</b>	<b>205</b>
General Factors Related to Speech Sound Disorders	205
Description of Articulatory Errors	207
Organically Based Disorders	208

<b>Assessment of Speech Sound Disorders</b>	<b>213</b>
Screening	213
General Assessment Objectives	213
Related Assessment Objectives	213
Assessment Procedures	214
Specific Components of an Assessment	215
Scoring and Analysis of Assessment Data	217
<b>Treatment of Speech Sound Disorders</b>	<b>220</b>
General Considerations in Treatment	220
Motor-Based Approaches	222
Linguistic Approaches	224
Core Vocabulary (Consistency) Approach	226
Phonological Awareness Treatment	227
<b>Chapter Highlights</b>	<b>229</b>
<b>Study and Review Questions</b>	<b>230</b>
<b>Study and Review Answers</b>	<b>234</b>

---

## CHAPTER 6

### Fluency and Its Disorders 236

<b>Fluency and Stuttering: An Overview</b>	<b>237</b>
Definition and Description of Fluency	237
Definition and Description of Stuttering	238
Forms of Dysfluencies	239
Theoretical and Clinical Significance of Dysfluencies	240
Incidence and Prevalence of Stuttering	241
Onset and Development of Stuttering	245
Associated Motor Behaviors	246
Associated Breathing Abnormalities	246
Negative Emotions and Avoidance Behaviors	247
The Loci of Stuttering	247
Stimulus Control in Stuttering	248
People Who Stutter and Their Families	249
Theories of Stuttering	250
<b>Assessment and Treatment of Stuttering</b>	<b>252</b>
Assessment of Stuttering	252
Treatment of Stuttering	254
<b>Neurogenic Stuttering</b>	<b>261</b>
Definition and Etiology of Neurogenic Stuttering	261

Description of Neurogenic Stuttering	262
Assessment and Treatment of Neurogenic Stuttering	262
<b>Cluttering</b>	<b>263</b>
Definition and Description of Cluttering	263
Assessment and Treatment of Cluttering	264
<b>Other Types of Fluency Disorders</b>	<b>265</b>
<b>Chapter Highlights</b>	<b>265</b>
<b>Study and Review Questions</b>	<b>266</b>
<b>Study and Review Answers</b>	<b>270</b>

---

## CHAPTER 7

### Voice and Its Disorders 272

<b>Vocal Anatomy and Physiology</b>	<b>273</b>
The Larynx	273
Voice Changes Through the Life Span	280
<b>Vocal Pitch, Loudness, and Quality</b>	<b>282</b>
Pitch	282
Loudness	283
Quality	283
<b>Evaluation of Voice Disorders</b>	<b>285</b>
Case History: Purposes and Goals	285
A Team-Oriented Approach	286
Instrumental Evaluation	286
Perceptual Evaluation	291
Quality of Life Evaluation	293
<b>Disorders of Resonance and Their Treatment</b>	<b>294</b>
Hypernasality	295
Hyponasality	296
Assimilative Nasality	296
Cul-de-Sac Resonance	296
Treatment Principles	297
<b>Disorders of Phonation and Their Treatment</b>	<b>298</b>
Carcinoma and Laryngectomy	299
Voice Disorders	303
Physically Based Disorders of Phonation	304
Idiopathic Voice Disorders	317
Neurologically Based Voice Disorders	317

Psychogenic Voice Disorders	321
Behavioral Voice Therapy	322
Gender Issues and the Voice	327
<b>Chapter Highlights</b>	<b>329</b>
<b>Study and Review Questions</b>	<b>330</b>
<b>Study and Review Answers</b>	<b>335</b>

---

## CHAPTER 8

### Neurologically Based Communicative Disorders 336

<b>Aphasia</b>	<b>337</b>
Incidence and Prevalence of Aphasia	337
Neuropathology of Aphasia	338
Key Terms	339
Definition and Classification of Aphasia	340
Nonfluent Aphasias	340
Fluent Aphasias	344
Subcortical Aphasia	348
Crossed Aphasia	348
Aphasia in Bilingual Populations	348
Assessment of Aphasia	349
Treatment of Aphasia	354
Alexia and Agraphia	359
Agnosia	360
<b>Dementia</b>	<b>360</b>
Definition and Classification of Dementia	361
Dementia of the Alzheimer Type	361
Frontotemporal Dementia	363
Dementia Associated With Parkinson's Disease	366
Dementia Associated With Huntington's Disease	367
Infectious Dementia	368
Other Forms of Dementia	371
Assessment of Dementia	372
Clinical Management of Dementia	373
<b>Right Hemisphere Disorder</b>	<b>375</b>
The Right and the Left Hemispheres	375
Symptoms of Right Hemisphere Disorder	375
Assessment of Right Hemisphere Disorder	377
Treatment of Right Hemisphere Disorder	378

<b>Traumatic Brain Injury</b>	<b>379</b>
Definition and Incidence of TBI	379
Common Causes of TBI	380
Types and Consequences of TBI	380
General Assessment of Persons With TBI	382
Assessment of Communicative Deficits Associated With TBI	383
Treatment of Persons With TBI	384
<b>Chapter Highlights</b>	<b>386</b>
<b>Study and Review Questions</b>	<b>387</b>
<b>Study and Review Answers</b>	<b>390</b>

---

## CHAPTER 9

### Motor Speech Disorders and Dysphagia 392

<b>Apraxia of Speech</b>	<b>393</b>
Definition and Distinctions	393
Neuropathology of AOS	394
General Symptoms of AOS	395
Communication Deficits in AOS	395
Assessment of AOS	396
Treatment of AOS	397
<b>The Dysarthrias</b>	<b>398</b>
Definition of the Dysarthrias	398
Neuropathology of the Dysarthrias	403
Communicative Disorders Associated With Dysarthria	403
Types of Dysarthria	404
Differentiating Apraxia of Speech From Dysarthria	412
Assessment of the Dysarthrias	412
Treatment of the Dysarthrias	414
<b>Swallowing Disorders</b>	<b>416</b>
The Nature and Etiology of Swallowing Disorders	416
Normal and Disordered Swallow	417
Assessment of Swallowing Disorders	419
Treatment of Swallowing Disorders	420
<b>Chapter Highlights</b>	<b>424</b>
<b>Study and Review Questions</b>	<b>425</b>
<b>Study and Review Answers</b>	<b>428</b>

---

## CHAPTER 10

### Cleft Palate, Craniofacial Anomalies, and Genetic Syndromes 430

<b>Craniofacial Anomalies and Cleft Palate</b>	<b>431</b>
Craniofacial Anomalies	431
Cleft Lip	431
Cleft Palate	432
<b>Genetic Syndromes</b>	<b>444</b>
Genetic Syndromes Associated With Communication Disorders	444
<b>Chapter Highlights</b>	<b>453</b>
<b>Study and Review Questions</b>	<b>453</b>
<b>Study and Review Answers</b>	<b>458</b>

---

## CHAPTER 11

### Communication Disorders in Multicultural Populations 460

<b>Foundational Issues</b>	<b>461</b>
General Cultural Considerations	462
ASHA Guidelines Regarding Multicultural Issues	463
<b>Speech–Language Characteristics of CLD Clients</b>	<b>464</b>
Dialects of American English	464
African American English	465
Characteristics of AAE Morphology, Syntax, and Articulation	466
Spanish-Influenced English	468
English Influenced by Asian Languages	471
<b>Language Differences and Language Impairment</b>	<b>476</b>
Differentiating Language Differences From Language Impairments	476
Acquiring a Second Language	477
Basic Interpersonal Communication Skills and Cognitive–Academic Language Proficiency	479
<b>Assessment of EL Students</b>	<b>481</b>
Legal Considerations	482
Considerations in the Use of Standardized Tests	482
Alternatives to Standardized Tests	485
Working With Interpreters in the Assessment Process	487
<b>Treatment Considerations in Service Delivery to CLD Clients</b>	<b>488</b>
Children With Language Impairments	489
Serving CLD Adults: Prevalence and Incidence Rates of Medical Conditions and Communication Disorders	490

Potential Sociocultural and Linguistic Barriers to Service Delivery 491

Adults With Neurologically Based Disorders of Communication 492

**Chapter Highlights 495**

**Study and Review Questions 497**

**Study and Review Answers 503**

---

## CHAPTER 12

### **Audiology and Hearing Disorders 506**

**Anatomy and Physiology of Hearing 508**

The Outer Ear 508

The Middle Ear 508

The Inner Ear 511

The Auditory Nervous System 513

**Acoustics: Sound and Its Perception 515**

The Source of Sound 515

Sound Waves 516

Frequency and Intensity 517

Sound Pressure Level and Hearing Level 518

**The Nature and Etiology of Hearing Loss 519**

Normal Hearing 519

The Nature of Hearing Impairment 520

Conductive Hearing Loss 520

Sensorineural Hearing Loss 525

Mixed Hearing Loss 528

Auditory Nervous System Impairments 528

**Assessment of Hearing Impairment 531**

Audiometry: Basic Principles 531

Pure-Tone Audiometry 532

Speech Audiometry 533

Acoustic Immittance 533

Other Methods 534

Hearing Screening 534

Assessment of Infants and Children 535

Interpretation of Hearing Test Results 535

**Management of Hearing Impairment 539**

Communication Disorders of People With Hearing Impairment 539

Aural Rehabilitation: Basic Principles 541

Amplification 542

Communication Learning	547
<b>Chapter Highlights</b>	<b>553</b>
<b>Study and Review Questions</b>	<b>554</b>
<b>Study and Review Answers</b>	<b>558</b>

---

## CHAPTER 13

### Assessment and Treatment: Principles of Evidence-Based Practice 560

<b>Evidence-Based Practice in Speech–Language Pathology</b>	<b>561</b>
<b>Standard Assessment Procedures</b>	<b>562</b>
Screening	562
Case History	563
Hearing Screening	565
Orofacial Examination	565
Interview	565
Speech and Language Sample	566
Obtaining Related Assessment Data	567
<b>Principles of Standardized Assessment</b>	<b>568</b>
The Nature and Advantages of Standardized Assessment	568
Limitations of Standardized Tests	569
Prudent Use of Standardized Tests	570
Types of Scores in Standardized Assessment	571
Validity and Reliability of Standardized Tests	572
<b>Rating Scales, Questionnaires, and Developmental Inventories</b>	<b>573</b>
Rating Scales	573
Questionnaires and Interviews	573
Developmental Inventories	573
<b>Alternative Assessment Approaches</b>	<b>574</b>
Functional Assessment	574
Client-Specific Assessment	575
Criterion-Referenced Assessment	576
Authentic Assessment	576
Dynamic Assessment	577
Comprehensive and Integrated Assessment	577
<b>Treatment of Communication Disorders: Basic Concepts</b>	<b>578</b>
Treatment: Definition	578
A Treatment Paradigm for Communication Disorders	579
Basic Treatment Terms	579
Reinforcers and Reinforcement	583

<b>An Overview of the Treatment Process</b>	<b>585</b>
Selection of Treatment Targets	585
Treatment Sequence	586
Maintenance Program	587
Follow-Up	588
Booster Treatment	588
<b>A General Outline of a Treatment Program</b>	<b>588</b>
Seven Steps of All Treatment Programs	589
<b>Cultural–Linguistic Considerations in Assessment and Treatment</b>	<b>589</b>
The Need for Individualized Assessment and Treatment	590
<b>Chapter Highlights</b>	<b>591</b>
<b>Study and Review Questions</b>	<b>592</b>
<b>Study and Review Answers</b>	<b>595</b>

---

## CHAPTER 14

### Research Design and Statistics: A Foundation for Clinical Science 596

<b>Essentials of the Scientific Method</b>	<b>597</b>
The Philosophy of Science: Basic Concepts	597
Validity of Measurements	599
Reliability of Measurements	600
<b>Experimental Research</b>	<b>601</b>
Definitions of Terms	601
Group Designs of Research	602
Single–Subject Designs of Research	604
<b>Varieties of Descriptive Research</b>	<b>608</b>
Basic Concepts	608
Ex Post Facto (Retrospective) Research	609
Survey Research	610
Comparative Research	610
Developmental (Normative) Research	610
Correlational Research	611
Ethnographic Research	612
<b>Evaluation of Research</b>	<b>612</b>
Internal Validity	613
External Validity	615
Levels of Evidence for Evidence-Based Practice	616
<b>Data Organization and Analysis: Principles of Statistics</b>	<b>618</b>

Basic Concepts	618
Statistical Techniques for Organizing Data	619
Types of Measurement Scales	620
<b>Chapter Highlights</b>	<b>621</b>
<b>Study and Review Questions</b>	<b>623</b>
<b>Study and Review Answers</b>	<b>628</b>

---

## CHAPTER 15

### Professional Issues 630

<b>ASHA and the Professions</b>	<b>631</b>
The American Speech-Language-Hearing Association	632
The Professions of Speech–Language Pathology and Audiology	635
The Scope of Practice: Speech–Language Pathology	635
ASHA Accreditation	636
<b>Issues in Certification and Licensure</b>	<b>637</b>
Clinical Certification	637
Speech–Language Pathology Assistants	640
State Regulation of the Profession	641
<b>Legislative Regulation of the Profession</b>	<b>643</b>
Federal Legislation Affecting School Settings	643
Federal Legislation Affecting Employment Settings	645
Federal Legislation Affecting Health Care Settings	646
Future Trends	648
<b>Chapter Highlights</b>	<b>649</b>
<b>Study and Review Questions</b>	<b>650</b>
<b>Study and Review Answers</b>	<b>653</b>

### Appendix 654

<b>Study and Test-Taking Tips for the Praxis</b>	<b>655</b>
The Nature and Purpose of the Praxis	655
Study Tips for Preparing for the Praxis	658
General Tips for Taking the Praxis	659
Understanding Computer-Generated Questions	662
Conclusion	663

*Index* 664

*About the Authors* 694
