

Unit 1: What’s so special about 0 and 1?	2
Lesson 1: Adding Zero	5
Lesson 2: Multiplying by One	13
Lesson 3: Application and Assessment	21
Unit 2: How do I solve two-step equations?	30
Lesson 1: Manipulating Two-Step Equations	33
Lesson 2: Modeling Real-World Problems	41
Lesson 3: Application and Assessment	49
Unit 3: What are “like” terms?	58
Lesson 1: Simplifying Expressions	61
Lesson 2: Solving Equations	69
Lesson 3: Application and Assessment	77
Unit 4: When can I (and when can’t I) use the Distributive Property?	86
Lesson 1: Simplifying Expressions	89
Lesson 2: Solving Equations	97
Lesson 3: Application and Assessment	105
Unit 5: Why does cross-multiplication work?	114
Lesson 1: Solving Proportions	117
Lesson 2: Real-World Applications	125
Lesson 3: Application and Assessment	133
Unit 6: Why do inequality signs change?	142
Lesson 1: Numbers and Their Opposites.....	145
Lesson 2: Solving and Graphing Inequalities	153
Lesson 3: Application and Assessment	163
Unit 7: How can absolute value equations and inequalities have more than one solution?	172
Lesson 1: Absolute Value Equations.....	175
Lesson 2: Absolute Value Inequalities.....	183
Lesson 3: Application and Assessment	191
Glossary	A1
Index	A3
