

About the Authors

Melissa Baker, MS, CCC-SLP, received her bachelor's degree from Indiana University in 1999 and her master's degree from Rush University in Chicago in 2001. Melissa has worked in a variety of settings, including inpatient rehab, outpatient rehab, and acute care. She has extensive adult experience, including being a member of the brain injury team of a rehabilitation hospital and working on the medical/surgical floors of a level 1 trauma center. She gained research and product development experience as the Test Coordinator for LinguiSystems and currently works for Genesis Health Systems in Davenport, Iowa. She has a special interest in the rehabilitation of cognitive-communication disorders following traumatic brain injury.

Melissa resides in Davenport, Iowa, with her husband, Ted; their sons, Dillon (age 3) and Aaron (age 18 months); their 9-year-old vizsla; and their 2-year-old black lab. *Results for Adults Cognition* is Melissa's first publication with LinguiSystems.

Christine Johnson, MS, CCC-SLP, received her undergraduate and graduate training at Eastern Illinois University. She worked in a variety of healthcare settings for over 20 years, including acute care, skilled care, outpatient, and home health care. She enjoys country living in west-central Illinois as well as playing the piano, reading, and visiting family. She is currently Marketing Coordinator at LinguiSystems. *Results for Adults Cognition* is Christine's second publication with LinguiSystems. She is also the author of *Results for Adults Aphasia, Book 1*.

Dedications

To my boys – T, D, & A

To my former patients – thanks for teaching me more about brain injury rehabilitation than a textbook or course ever could

Melissa

To my parents – Leroy and Dorothy Winter, for your unwavering love and support

Christine
