

Toy Store

Name _____

Use this picture with page 9.

We are going to learn about directions that use the word **match**. We will match pictures of objects. Look at the apples in box 1. They have dotted lines under them. Trace the lines. (Pause.) You drew lines under the pictures that match because they are both apples. Now you know how to find pictures that match. You don't need the dotted lines. Look at box 2. Draw lines under the pictures that match.

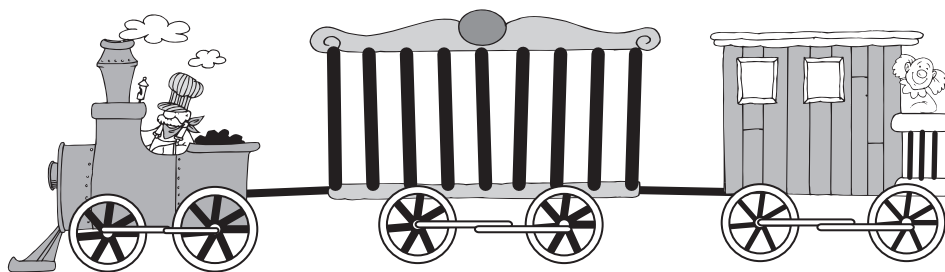

Look at the rows of pictures. Let's talk about them.

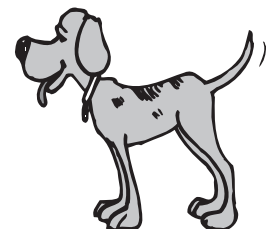

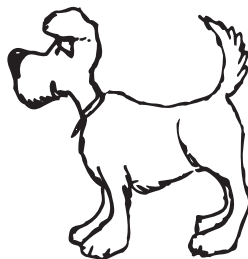

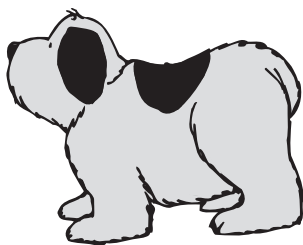

Now listen for the words **not the first or the last** and follow my directions.

1. Look at the train. Put an X on the car that is not the first or the last.
2. Look at the dogs. Put an X on the dog that is not the first or the last.
3. Look at the boys. Put an X on the boy who is not the first or the last.
4. Look at the people marching. Put an X on the person who is not the first or the last.
