

## ABOUT THE AUTHOR

**Nancy B. Swigert, M.A., CCC-SLP, BRS-S**, received her master's degree from the University of Tennessee, Knoxville. She is a board-recognized specialist in swallowing and swallowing disorders. She is the Director of Speech-Language Pathology & Respiratory Care at Central Baptist Hospital in Lexington, Kentucky. For 26 years prior to that, she was president/founder of Swigert & Associates, Inc., a private practice serving the Central Kentucky area.

Nancy has authored several publications for LinguiSystems, including *The Source for Dysphagia Third Edition*, *The Source for Pediatric Dysphagia Second Edition*, *The Source for Children's Voice Disorders*, *The Source for Reading Fluency*, *Reading Fluency and Comprehension Activities and Exercises*, and *The Early Intervention Kit*. Nancy is also the author of the LinguiSystems CE courses, *Changing Behavior to Change the Child's Voice* and *Understanding and Assessing Dysarthria*. In addition, Nancy lectures extensively at the state, regional, and national levels on sensorimotor speech disorders and coding and reimbursement.

Nancy currently serves on the Specialty Board for Swallowing and Swallowing Disorders. She is the former president of the Kentucky Speech-Language-Hearing Association, the Council of State Association Presidents, the American Speech-Language-Hearing Foundation, and the American Speech-Language-Hearing Association (1998).

## DEDICATION

To Keith, who understands and supports my desire to keep things updated and accurate

To Paul Blanchet, Ph.D., CCC-SLP, Assistant Professor, SUNY @ Fredonia, a self-proclaimed neuro nerd and friend, who provided a careful review of the text to suggest areas for revisions and cheerfully responded to questions throughout this rewrite

To the scholars in the area of sensorimotor speech disorders whose work (cited frequently in this book) provides the foundation for clinical intervention

## ACKNOWLEDGMENTS

I am indebted to Timothy Coleman, M.D., neurologist and friend, for reviewing this manuscript for accuracy. I am also grateful to him for referring patients with dysarthria to me for evaluation and treatment.

I am also indebted to Kay Ross, Vice President for Oncology and Clinical Support, my boss at Central Baptist. After 26 years of being my own boss, Kay made my transition to having a boss easy, encouraging me to continue with my writing and presentations.

A special thanks to Lonnie Wright and Carla Townsend, librarians extraordinaire, who assisted me in finding references on the latest evidence-based practice.
